Levine,2016-08-04 More than a billion people watched the 9 11 World Trade Center destruction unfold on television making it the greatest shared event in world history Reflecting this fact the 2003 World Trade Center Memorial Design Competition was open to anyone drawing 5 201 entries from 60 countries all of which were posted online Most designs were the greyscale hardscape of typical memorials A few were radically imaginative Some engaged memory with sound color movement technology or visitor participation Others reached across the globe cyberspace even outer space These imaginings stirred questions about their creators Who were they What were they thinking and feeling How did the concept develop This book based on a first ever review of the entries tells the personal stories of more than 180 designers whose creative perspective translated an horrific event giving deeper thought to the relation of memorial spaces to history geography technology and cultural diversity History of Forensic Medicine Burkhard Madea,2017-01-01 Forensic Medicine is an old medical

discipline defined as that science which teaches the application of every branch of medical knowledge to the purpose of the law Alfred Swaine Taylor Forensic Medicine deals with medical evidence not only in practice but also in research and furthermore all legal essentials in health care especially for doctors are part of teaching training and research Several steps in the development of Forensic Medicine can be distinguished At first the use of medical knowledge for legal and public purposes Secondly the compulsory medical testimony for the guidance of judges Thirdly the professionalization as an own academic discipline The development and existence of a speciality of Forensic Medicine depends essentially on two factors on a sufficiently high development of the law and on a sufficiently high development of medicine The period of professionalization of Forensic Medicine as an own academic discipline started in the 19th century especially in Paris Vienna London Edinburgh Berlin Since then the world has changed dramatically and we are now witnesses of a rapid deep rooted social cultural legal and technological transformation Already 40 years ago Professor Bernhard Knight wrote in a survey on legal medicine in Europe In all aspects of life the exchange of information on an international level can do nothing but good and legal medicine is no exception This book on the History of Forensic Medicine is an approach in this direction Forensic Medicine has a long and rich tradition since medical expertise has to face legal questions and new questions and developments raised by the society The aim of this book is to address the state of Forensic Medicine in different countries worldwide With contributions from Europe China Japan the United States and the United Arab Emirates

Marion, 2018-10-15 From the 1920s Afghanistan maintained a small air arm that depended heavily upon outside assistance Starting in 2005 the United States led an air advisory campaign to rebuild the Afghan Air Force AAF In 2007 a formal joint combined entity led by a U S Air Force brigadier general began air advisor work with Afghan airmen Between 2007 and 2011 these efforts made modest progress in terms of infrastructures personnel and aircraft accessions and various training courses But by 2010 advisors increasingly viewed AAF command and control C2 as a problem area that required significant improvement if a professional air force was to be built In the spring of 2011 major institutional changes to AAF C2 procedures were being introduced when nine U S air advisors were killed The attack was the worst single incident loss of U S Air Force personnel in a deployed location since 1996 and the worst insider attack since 2001 From the day of that tragic event the cultural chasm between Afghanistan and the West became more apparent This dilemma continues with no end in sight to an air advisory mission of uncertain long term value

Unjust Restitution Michael Kingsley Brown, 2025-02-04 The question of economic justice for Black Americans remains unresolved and continues to be the subject of contentious political debate In Unjust Restitution Michael K Brown examines the meaning of racial equality during three transformative periods in American history when significant changes to economic status and opportunity appeared to be a real possibility in the US Reconstruction the New Deal and the Great Society Political leaders believed slavery and Jim Crow degraded Black people and enacted policies to rehabilitate formerly subjugated individuals Black Americans challenged this conception and

repudiated the idea that they were damaged people in need of repair Repeatedly Black people s vision of economic justice was based on anti privilege egalitarianism the idea that a just restitution for their oppression required abolishing the political and legal privileges whites had acquired Black opposition reveals what was at stake at each historical moment and what might constitute economic justice in the twenty first century Equality of opportunity can be a just restitution for continuing durable racial inequality only if it changes the structure of people s economic opportunities *War on Peace* Ronan Farrow,2018-04-24 A New York Times Wall Street Journal Los Angeles Times and IndieBound bestseller Finalist for the Colby Award A new revised and updated edition of a modern classic of foreign policy a harrowing exploration of the collapse of American diplomacy and the abdication of global leadership by the winner of the 2018 Pulitzer Prize in Public Service US foreign policy is undergoing a dire transformation forever changing America s place in the world Institutions of diplomacy and development are bleeding out after deep budget cuts the diplomats who make America s deals and protect its citizens around the world are walking out in droves Offices across the State Department sit empty while abroad the military industrial complex has assumed the work once undertaken by peacemakers We re becoming a nation that shoots first and asks questions later In an astonishing journey from the corridors of power in Washington DC to some of the most remote and dangerous places on earth Afghanistan Somalia and North Korea among them acclaimed investigative journalist Ronan Farrow illuminates one of the most consequential and poorly understood changes in American history His firsthand experience as a former State Department official affords a personal look at some of the last standard bearers of traditional statecraft including Richard Holbrooke who made peace in Bosnia and died while trying to do so in Afghanistan Drawing on recently unearthed documents and richly informed by rare interviews with whistle blowers a warlord and policymakers including every living former secretary of state from Henry Kissinger to Hillary Clinton to Rex Tillerson and now updated with revealing firsthand accounts from inside Donald Trump s confrontations with diplomats during his impeachment and candid testimonials from officials in Joe Biden s inner circle *War on Peace* makes a powerful case for an endangered profession Diplomacy Farrow argues has declined after decades of political cowardice shortsightedness and outright malice but it may just offer America a way out of a world at war **Yearbook of Transnational History** Thomas Adam,2024-05-15 The Yearbook of Transnational History is dedicated to disseminating pioneering research in the field of transnational history This seventh volume brings together examples of four different world migration systems that of the Black Atlantic of early modern religious migrations exile in the nineteenth and twentieth centuries and twenty first century refugee systems thus encompassing more than six centuries from local regional transregional comparative and macro historical perspectives
