Handbook on Legal Cultures Sören Koch, Marius Mikkel Kjølstad, 2023-05-30 Cooperation across borders requires both knowledge of and understanding of different cultures This is especially true when it comes to the law This handbook is the first to comprehensively present selected legal cultures based on a very specific set of structural elements which can be found in all such cultures Legal cultures are a product of and impacted by certain fundamental and commonly shared ideas on and expectations of the law In all modern societies these ideas are to a certain degree institutionalized or at least embedded in institutionalized practices These practices determine the way lawyers are educated and apply the law how they engage with the ongoing internationalization of law and what kind of values they adhere to Looking at these elements separately enables the reader to identify similarities and differences and to explain them contextually Understanding these general features of legal cultures can help avoid misunderstandings or misinterpretations of foreign law and its application Accordingly this handbook is a necessary starting point for all kinds of legal comparative studies conducted by academics students judges and other legal practitioners *Ya'ityopyā heg maṣḥét*, 2008 *Ethiopian Yearbook of International Law* 2018 Zera Yihdego, Melaku Gebaye Desta, Martha Belete Hailu, 2019-09-25 EtYIL 2018 comes at a time when multilateralism and its underpinning norms of international law and institutions are under siege At the same time in 2018 Africa stood out for upholding multilateralism and international law From the adoption of the Agreement establishing the African Continental Free Trade Area to the signing of peace agreements that brought to an end two decades of hostilities between Eritrea and Ethiopia 2018 was indeed a remarkable year for international law in Africa EtYIL 2018 covers some of these issues including the Eritrea Ethiopia Claims Commission decisions on jus ad bellum jus in bello evidentiary and procedural matters and the role of arbitration in upholding the international rule of law Such new developments as the lifting of UN sanctions against Eritrea and the agreements signed between Eritrea and Ethiopia are also covered in this volume The volume further devotes considerable attention to other legal issues including the use and misuse of European patent law to the detriment of developing countries interests sharing transboundary resources production sharing agreements on extractives evolving rules governing economic relations between Africa and the European Union in the context of Brexit contract farming in the African cocoa and chocolate industry the International Criminal Court and human rights law and cyber attacks and the role of international law in tackling them These chapters authored by experts from Africa Asia Europe and North America not only bring new and diverse voices to the international law discourse they also contribute to EtYIL's overarching goal of contributing to the effort to rebalance the narrative of international law **State and Economic Development in Africa** Aaron Tesfaye, 2017-07-20 This book critically assesses the impact of Ethiopia's policy of Agriculture Development Led Industrialization Employing qualitative and quantitative analysis it presents empirical evidence suggesting persistent economic growth The research highlights improvements in infrastructure health care education poverty alleviation as well

reductions in infant mortality rate The impact of this economic growth has however had led to only slight improvements in the plight of the poor The author argues that while significant steps have been achieved with measurable economic gains there are still undeniable obstacles within the federal system prevailing patron client relationships constraints on state capacity to efficiently and effectively implement policy and bureaucratic rent seeking in the provision of public goods The author concludes that these problems will have to be resolved before Ethiopia s political economy can achieve the stage of sustainable development

Responsibility of Higher Education Systems, 2020-06-29 The evolving societal political and economic landscape has led to increased demands on higher education institutions to make their contribution and benefits to society more visible and in many cases with fewer public resources This book contributes to the understanding of the responsibilities of Higher Education and the challenges posed to the production and circulation of knowledge It raises questions about the role of higher education in society its responsibility towards students and staff and regarding its intended impact The book brings together a range of topical papers and a diversity of perspectives scientific investigations of reputed scholars critical evidence based papers of third space professionals and policymakers perspectives on the daily practice and management of higher education institutions and systems The variety of both content and contributors elevates the richness of the book and its relevance for a large audience Contributors are Victor M H Borden Lex Borghans Bruno Broucker Hamish Coates Gwilym Croucher Lisa Davidson Mark Engberg Philipp Friedrich Martina Gaisch Solomon Gebreyohans Gebru Ton Kallenberg Kathi A Ketcheson Lu Liu Alfredo Marra Clare Milsom Kenneth Moore Roberto Moscati Marjolein Muskens Daniela N meyer Attila Pausits Svetlana Shenderova Wafa Singh Chuanyi Wang Denyse Webbstock Gregory Wolniak and Jiale Yang See inside the book

Foreign Direct Investment and International Law

Adaeze Agatha Aniodoh, 2025-07-16 This book examines the regulatory framework for foreign direct investments most notably the bilateral investment treaties which provide several guarantees that minimise the exposure of risks to foreign investors in a host State Most States have recognised that one of the ways they can improve their economic growth is by providing effective mechanisms for the attraction of foreign investments In this regard foreign direct investments have become a key element in the strategic vision for advancing any national economy The book examines guarantees which have the capacity to impinge on the economic sovereignty of a State raising questions such as are host States obliged to comply with the rights of foreign investors to free capital repatriation in the face of economic difficulties What power does a host State have to regulate and impose capital controls that are deleterious to the rights of a foreign investor This book argues that policies aimed at increasing foreign direct investment need to extend beyond investment liberalisation to strike a balance between the regulatory rights of a State and the legitimate expectations of foreign investors Advancing the discussion on the necessity of balancing the needs of foreign investors with those of the host community and exploring the power asymmetry present in treaty negotiations this book will be of interest to students academics and practitioners with an interest in international investment law
