Jakhar, Amit Mathur, This book is Designed for the students of Engineering and Technology as well as specially for
Mechanical Engineering Degree and Diploma students The teaching of this course faces difficulty in explaining the various
concept of machine drawing viz orthographical projection sectioning complicated mechanical assembly drawing etc
Sometimes explanation requires some three dimensional and complicated drawing to be drawn on the black board which is
quite impossible due to the time constraint of class This book is an outcome of the strong need felt by students offering the
course and the teaching need felt by us The teacher can explain the related concepts drawing methods and uses of various
parts being drawn etc in each practical class without bothering the black board The subject matter has been compressed
from the view point of Mechanical Engineering students The book also contains Basic Drawing Softwares which describes
about the basics of Auto CAD CATIA PROE ANSYS etc which is useful for today s need of Engineering Technology
