## **Entrepreneurship 11th Edition:**

**Entrepreneurship in India** Deependra Sharma, 2022-10-06 This book introduces readers and students to the entrepreneurial process. It is important as evidence has suggested that the probability of entrepreneurs' success enhances when they thoroughly appreciate the components of the entrepreneurial process as well as how to effectively use them. The fact that nearly 33 percent of new firms fail within the first two years while twenty percent fail within four to five years of their existence makes it evident that while many people are highly motivated to start new firms, motivation alone is not sufficient; rather, it should be coupled with relevant information, a strong business idea, a well-crafted business plan, and sound execution to maximize chances for success. This work offers an insightful and a practical guide to the process of launching and growing an entrepreneurial organisation with success. It will therefore serve as an important resource to students of Entrepreneurship and to anyone interested in the field academically or practically. **Resources in Education**, 1997

Clevenger, Michael W-P Fortunato, 2022-06-24 Entrepreneurial Communities and Ecosystems: Theories in Culture, Empowerment, and Leadership examines the deep sociocultural dynamics supporting effective and emergent entrepreneurial ecosystems and communities for a new generation of ecosystem builders and researchers. The book provides current theories and discussion with relevant examples regarding culture, empowerment, and leadership in entrepreneurship to build more entrepreneurial communities anywhere, beginning with any set of local advantages. It clarifies the role of community in building an entrepreneurial ecosystem and expands the theory on how entrepreneurial communities and ecosystems differ and how they relate. The book also illuminates the often avoided discussion about power with special attention to diversity with examples of Black women and LGBTQA. Entrepreneurship provides a deep dive into the range of formal and informal education framed as entrepreneurship ties the importance of entrepreneurship and entrepreneuring to resources available at the community, state, and national levels and introduces a new concept, omnipreneurship, which puts the skills of entrepreneurship in the service of global benefit and everyday action.
