Garcia,2015-04-24 Arising from the philosophical conviction that our sense of space plays a direct role in our apprehension and construction of reality both factual and fictional this book investigates how conceptions of postmodern space have transformed the history of the impossible in literature Deeply influenced by the work of Jorge Luis Borges and Julio Cortazar there has been an unprecedented rise in the number of fantastic texts in which the impossible is bound to space not as scene of action but as impossible element performing a fantastic transgression within the storyworld This book conceptualizes and contextualizes this postmodern fantastic use of space that disrupts the reader's comfortable notion of space as objective reality in favor of the concept of space as socially mediated constructed and conventional In an illustration of the transnational nature of this phenomenon Garcia analyzes a varied corpus of the Fantastic in the past four decades from different cultures and languages merging literary analysis with classical questions of space related to the fields of philosophy urban studies and anthropology Texts include authors such as Julio Cortazar Argentina John Barth USA J G Ballard UK Jacques Sternberg Belgium Fernando Iwasaki Peru Juan Jos Millas Spain and Eric Faye France This book contributes to Literary Theory and Comparative Literature in the areas of the Fantastic narratology and Geocriticism and informs the continuing interdisciplinary debate on how human beings make sense of space American Sacred Space David Chidester,Edward T.

*The Fiction of Occasion in Hellenistic and Roman Poetry* Adrian Gramps,2021-07-05 The aim of this book is to devise a method for approaching the problem of presence in Hellenistic and Roman poetry The problem of presence as defined here is the problem of the availability or accessibility to the reader of the fictional worlds disclosed by poetry From Callimachus Hymns to the Odes of Horace poets of this era repeatedly challenge readers by beckoning them to explore fictive spaces which are at

once familiar and otherworldly realms of the imagination which are nevertheless firmly rooted in the lived reality of the poets and their contemporaries We too when we read these poems may feel simultaneously a sense of being transported to a world apart and of being seized upon by the poem s address in the here and now of reading The fiction of occasion is proposed as a new conceptual tool for understanding how these poems produce such problematic presences and what varieties of experience they make possible for their readers The fiction of occasion is defined as a phenomenon whereby a poem is fictionally framed as part of a material event or occasion with which the reader is invited to engage through the medium of the senses The book explores this concept through close readings of key authors from the corpus of first person poetry written in Greek and Latin between the 3rd century BCE and the 1st century CE with a focus on Callimachus Bion Catullus Propertius and Horace The ultimate purpose of these readings is to move towards developing a new vocabulary for conceptualising ancient poetry as an embodied experience

### **Crisis at**

**Work** J. Potter,2015-06-09 This book explores how we make sense of ourselves when work is precarious and intrinsically alienating We know little about how this experience of work impacts the lives of men and women and less about the way individuals understand themselves in the face of institutions and organizations from which they feel marginalized Based on the narratives of men and women who underwent extraordinary work life changes Crisis at Work examines how we negotiate greater meaning and fulfilment when our productive lives fail to sustain and satisfy Reflecting a growing fracture between what we value believe in and are committed to and the degree to which work and career have become incapable of assuaging those desires Potter examines how individuals attempt to assemble working lives they find rich and rewarding and how that work is negotiated within the constraints and possibilities of the contemporary moment
