Charles Wells Moulton,1892 Christian Moral Theology in the Emerging Technoculture Brent Waters,2016-05-23 We are
living in an emerging technoculture Machines and gadgets not only weave the fabric of daily life but more importantly
embody philosophical and religious values which shape the contemporary moral vision a vision that is often at odds with
Christian convictions This book critically examines those values and offers a framework for how Christian moral theology
should be formed and lived out within the emerging technoculture Brent Waters argues that technology represents the
principal cultural background against which contemporary Christian moral life is formed Addressing contemporary ethical
and religious issues this book will be of particular interest to students and scholars exploring the ideas of Heidegger
Nietzsche Grant Arendt and Borgmann **Material Ethics of Value: Max Scheler and Nicolai Hartmann** E.
Kelly,2011-08-21 Max Scheler and Nicolai Hartmann developed ethics upon a phenomenological basis This volume
demonstrates that their contributions to a material ethics of value are complementary by supplementing the work of one with
that of the other we obtain a comprehensive and defensible axiological and moral theory By phenomenology we refer to an
intuitive procedure that attempts to describe thematically the insights into essences or the meaning elements of judgments
that underlie and make possible our conscious awareness of a world and the evaluative judgments we make of the objects
and persons we encounter in the world **Disorienting Dharma** Emily T. Hudson,2012-12-19 Winner of the Award for
Excellence in Religion Textual Studies from the American Academy of Religion This book explores the relationship between
ethics aesthetics and religion in classical Indian literature and literary theory by focusing on one of the most celebrated and
enigmatic texts to emerge from the Sanskrit epic tradition the Mahabharata This text which is widely acknowledged to be
one of the most important sources for the study of South Asian religious social and political thought is a foundational text of
the Hindu tradition s and considered to be a major transmitter of dharma moral social and religious duty perhaps the single
most important concept in the history of Indian religions However in spite of two centuries of Euro American scholarship on
the epic basic questions concerning precisely how the epic is communicating its ideas about dharma and precisely what it is
saying about it are still being explored Disorienting Dharma brings to bear a variety of interpretive lenses Sanskrit literary
theory reader response theory and narrative ethics to examine these issues One of the first book length studies to explore the
subject from the lens of Indian aesthetics it argues that such a perspective yields startling new insights into the nature of the
depiction of dharma in the epic through bringing to light one of the principle narrative tensions of the epic the vexed
relationship between dharma and suffering In addition it seeks to make the Mahabharata interesting and accessible to a
wider audience by demonstrating how reading the Mahabharata perhaps the most harrowing story in world literature is a
fascinating disorienting and ultimately transformative experience **Politics of Security** Michael Dillon,2002-01-31 In this
critique of security studies with insights into the thinking of Heidegger Foucault Derrida Levinas and Arendt Michael Dillon

contributes to the rethinking of some of the fundamentals of international politics developing what might be called a political philosophy of continental thought Drawing on the work of Martin Heidegger Politics of Security establishes the relationship between Heidegger's radical hermeneutical phenomenology and politics and the fundamental link between politics the tragic and the ethical It breaks new ground by providing an etymology of security tracing the word back to the Greek *asphaleia* not to trip up or fall down and a unique political reading of Oedipus Rex Michael Dillon traces the roots of desire for security to the metaphysical desire for certitude and points out that our way of seeking that security is embedded in 20th century technology thus resulting in a global crisis Politics of Security will be invaluable to both political theorists and philosophers and to anyone concerned with international relations continental philosophy or the work of Martin Heidegger
