Beneficial Ownership in International Tax Law Angelika Meindl-Ringler,2016-06-07 In international tax law the term beneficial ownership refers to which parties involved in a cross border transaction are entitled to tax treaty benefits However determining beneficial ownership is a complex and often disputed issue subject to different meanings in different countries Archival research on its early use in tax treaties and in the developing OECD Model reveals that its meaning has changed dramatically over the decades leading to new interpretations significantly affecting current tax practice and scholarship This book dedicated to establishing how beneficial ownership should ideally be interpreted compares the use and interpretation of beneficial ownership both current and historical in a wide range of national jurisdictions as well as the EU ultimately shedding a clearer light than has heretofore been available on the meaning of the term In her very thorough analysis of the application of beneficial ownership the author touches on such aspects as the following historical development of the beneficial ownership requirement as used in tax treaties and in the OECD Model Tax Convention on Income and on Capital rules of double taxation conventions application of the OECD's Action Plan on Base Erosion and Profit Shifting BEPS the problem of so called white income use of the substance over form principle attribution of income rules and the role of agents nominees and conduit companies Specific analysis of the use and interpretation of beneficial ownership in a domestic law and treaty context in numerous jurisdictions with particular emphasis on the United Kingdom Australia the United States and Germany is a major feature of the presentation As a thorough guide to determining whether a person claiming tax treaty benefits is the true owner and which parties are excluded from treaty benefits and to what extent this book will be of immeasurable value to lawyers tax authorities policymakers and other professionals working with taxable international transactions of any kind

Towards a Neutral Formulary Apportionment System in Regional Integration Shu-Chien Chen,2023-03-09 International tax regimes and practices are heavily criticized for failing to fairly levy corporate tax on giant multinational taxpayers in the

current globalized and digitalized world This important and far seeing book demonstrates how formulary apportionment FA an approach by which a multinational corporation pays each jurisdiction s corporate tax based on the share of its worldwide income allocated to that jurisdiction can achieve the much sought goal of aligning value creation and taxation The author through an intensive analysis of the European Union s EU s Common Consolidated Corporate Tax Base CCCTB Directive Proposal s and comparison to the United States US s formulary apportionment experience shows how the perceived problems with an FA system can be overcome and lays out the necessary elements for its feasibility With detailed attention to the debates around formulary apportionment and its theoretical foundations the book provides a blueprint for rebuilding the normative framework for the EU s tax reform by clearly analysing the implications of the following and more theorising public benefits to be represented by taxation reorganising different economic theories about tax neutrality and tax justice advancing the comparative legal research methodology to analyse law reform by combining the functional approach and the problem solving approach designing the logical formulary apportionment system for digital economy ensuring the removal of the incentive for multinationals to shift reported income to low tax locations reducing the tax system s complexity and the administrative burden it imposes on firms eliminating transfer pricing complexity for intra firm transactions achieving equal weighting of the sales factor the labour factor and the asset factor in the formula application of destination based rule for attributing the sales factor and replacing the traditional permanent establishment nexus with a factor presence nexus The presentation incorporates extensive comparison between the EU s formulary apportionment tax reform option and FA systems existing in the United States US at state level including reference to relevant US case law and legislation As a possible option to address the problem of base erosion and profit shifting BEPS formulary apportionment is gaining increasing acceptance and attention This book will prove invaluable to taxation authorities tax practitioners and scholars in its deeply informed and systematic guidance on good practices and prevention of problematic experiences in establishing and implementing an effective and market neutral FA system

Tax, Public Finance, and the Rule of Law Dominic de Cogan,Alexis Brassey,May Hen,2025-02-20 This book offers a key point of reference for reflective and thoughtful examinations of the rule of law in tax and related disciplines It features a stellar cast of established and early career researchers from a variety of jurisdictions who have entered into conversations about the nature of the rule of law its relevance to questions about tax welfare distribution and public spending and the challenges involved in applying legal standards in these fields There is a particular focus on the interaction between the rule of law and the rapidly emerging world of cross border tax avoidance reforms influenced by the OECD s Base Erosion and Profits Shifting project and the evolution of EU level governance over direct as well as indirect taxes The book is accessible to those new to taxation and public finance as well as to experts and to lawyers and non lawyers alike

shying away from controversy Tax Reform with the 20/20 Tax James C. Tanner,2015-12-02 Many books have been written about tax reform but none offer the pragmatic and understandable approach that you'll find in this treatise filled with a nonpartisan set of solutions to fix an antiquated and indecipherable tax system James C Tanner a certified public accountant with more than four decades of experience explores how we can Create a fair and logical tax framework by rethinking income exclusions exemptions deductions credits tax brackets capital gains and other tax alternatives reform tax expenditures including health insurance and medical costs home mortgage and other interest deductions retirement plan deductions charitable donations and capital gains on assets sold and transferred lower the tax rates for most individual and corporate taxpayers while making our US companies more competitive with their foreign counterparts Tanner also outlines how historical decisions and legislative proposals led to our current tax laws under the premise that we can't fix them without understanding why they were created in the first place For those who want to participate in the national debate on federal tax reform it begins with a firm understanding of the system and the practical proposals in Tax Reform with the 20 20 Tax

VAT Neutrality Charlène Adline Herbain,2015-05-04 Most major economies use a value added tax VAT which is a derivation of the French 1954 *taxe sur la valeur ajoutée* The initial imposition of VAT in France and its spread around the world have been driven by economic reasons This book focuses on one of these economic triggers the neutrality of VAT as regards the functioning of the economy It demonstrates that the reason VAT was chosen in France and why thereafter it spread around the world was because it offered the possibility to collect governmental revenue while allowing the economic forces of the market to interplay without being adversely affected The prerequisite conditions for the existence of VAT neutrality are therefore identified herein along with an overview of the VAT mechanism demonstrating that the concept of neutrality is built into the VAT system in a manner that allows for the preservation of the natural functioning of the market After the definition of VAT neutrality is set forth the elements that comprise VAT neutrality are tested against the realities on the ground and the issues that infringe the neutrality of VAT are identified and analysed In conclusion remedies for these issues are being sought by a review of the causes of infringement of VAT neutrality in the perspective of selected proposals for modified VAT systems These proposals include redesignating the place where VAT is levied and improving VAT collection Ultimately the proposed solution has recourse to the roots of VAT together with the most advanced technological tools available to give back to VAT the power to levy revenue while letting the economic forces of the market interplay without instigating any adverse influence *Law and Regulation of Mobile Payment Systems* Joy Malala,2017-11-28 Over the last

ten years mobile payment systems have revolutionised banking in some countries in Africa In Kenya the introduction of M Pesa a new financial services model has transformed the banking and financial services industry Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts This book addresses the legal and regulatory issues arising out of

the introduction of M Pesa in Kenya and its drive towards financial inclusion It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya
