*Gale Researcher Guide for: Slavery and Slave Rebellions in Colonial North America* William E. Burns, 2018-09-28 Gale Researcher Guide for Slavery and Slave Rebellions in Colonial North America is selected from Gale's academic platform Gale Researcher. These study guides provide peer-reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research. **Contraband Guides** Paul H. D.

Kaplan, 2020-04-23 In his best-selling travel memoir *The Innocents Abroad* Mark Twain punningly refers to the black man who introduces him to Venetian Renaissance painting as a *contraband guide*, a term coined to describe fugitive slaves who assisted Union armies during the Civil War. By means of this and similar case studies Paul H. D. Kaplan documents the ways in which American cultural encounters with Europe and its venerable artistic traditions influenced nineteenth-century concepts of race in the United States. Americans of the Civil War era were struck by the presence of people of color in European art and society and American artists and authors both black and white adapted and transformed European visual material to respond to the particular struggles over the identity of African Americans. Taking up the work of both well and lesser-known artists and writers such as the travel writings of Mark Twain and William Dean Howells, the paintings of German American Emanuel Leutze, the epistolary exchange between John Ruskin and Charles Eliot Norton, newspaper essays written by Frederick Douglass and William J. Wilson, and the sculpture of freed slave Eugene Warburg, Kaplan lays bare how racial attitudes expressed in mid-nineteenth-century American art were deeply inflected by European traditions. By highlighting the contributions people of black African descent made to the fine arts in the United States during this period along with the ways in which they were represented, *Contraband Guides* provides a fresh perspective on the theme of race in Civil War era American art. It will appeal to art historians, to specialists in African American studies and American studies, and to general readers interested in American art and African American history. Through an examination of legal texts, medical treatises, and works of religious preaching, Sara Verskin illuminates how attitudes toward mixed gender interactions, legal theories pertaining to marriage, divorce, and inheritance, and scientific theories of reproduction contoured the intellectual and social landscape infertile women had to navigate. In so doing, she highlights underappreciated vulnerabilities and opportunities for women's

autonomy within the system of Islamic family law and explores the diverse marketplace of medical ideas in the medieval world and the perceived connection between women's health practices and religious heterodoxy Featuring copious translations of primary sources and minimal theoretical jargon *Barren Women* provides a multidimensional perspective on the experience of infertility while also enhancing our understanding of institutions and modes of thought which played significant roles in shaping women's lives more broadly This monograph has been awarded the annual BRAIS De Gruyter Prize in the Study of Islam and the Muslim World

Mistresses Elizabeth Abbott, 2011-09-01 A lively and nuanced look at gender roles as they have been revealed by the lives of concubines and mistresses over the centuries Kirkus She exists as both a fictional character and as a flesh and blood human being But who is she really Why do women become mistresses and what is it like to have a private life that is usually also a secret life Is a mistress merely a wife in waiting or is she the very definition of the emancipated independent female Elizabeth Abbott intelligently examines the motives and morals of some of history's most infamous and fascinating women from antiquity to today Drawing intimate portraits of those who have by chance coercion or choice assumed this complex role *Mistresses* offers a rich blend of personal biography and cultural insight Ms Abbott is delightfully indiscreet with an eye for a good story and a colloquial style She has done the ladies a service by bringing them out of the shadows *The Economist*

**The Ashgate Research Companion to Modern Imperial Histories** John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal

imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire

Women and Slavery in Nineteenth-century Colonial Cuba Sarah L. Franklin, 2012 Investigates how patriarchy operated in the lives of the women of Cuba from elite women to slaves Scholars have long recognized the importance of gender and hierarchy in the slave societies of the New World yet gendered analysis of Cuba has lagged behind study of other regions Cuban elites recognized that creating and maintaining the Cuban slave society required a rigid social hierarchy based on race gender and legal status Given the dramatic changes that came to Cuba in the wake of the Haitian Revolution and the growth of the enslaved population the maintenance of order required a patriarchy that placed both women and slaves among

the lower ranks Based on a variety of archival and printed primary sources this book examines how patriarchy functioned outside the confines of the family unit by scrutinizing the foundation on which nineteenth century Cuban patriarchy rested This book investigates how patriarchy operated in the lives of the women of Cuba from elite women to slaves Through chapters on motherhood marriage education public charity and the sale of slaves insight is gained into the role of patriarchy both as a guiding ideology and lived history in the Caribbean s longest lasting slave society Sarah L Franklin is assistant professor of history at the University of North Alabama *Mistresses and Slaves* Marli Frances Weiner,1997 Marli Weiner challenges much of the received wisdom on the domestic realm of the nineteenth century southern plantation a world in which white mistresses and female slaves labored together to provide food clothing and medicines to the larger plantation community Although divided by race black and white women were joined by common female experiences and expectations of behavior Because work and gender affected them as much as race mistresses and female slaves interacted with one another very differently from the ways they interacted with men Supported by the women s own words Weiner offers fresh interpretations of the ideology of domesticity that influenced women s race relations before the Civil War the gradual manner in which they changed during the war and the harsher behaviors that resulted during Reconstruction A volume in the series Women in American History edited by Anne Firor Scott Nancy A Hewitt and Stephanie Shaw **Islamic State in**

*Routes of Remembrance* Bayo Holsey,2008-09-15

Over the past fifteen years visitors from the African diaspora have flocked to Cape Coast and Elmina two towns in Ghana whose chief tourist attractions are the castles and dungeons where slaves were imprisoned before embarking for the New World This desire to commemorate the Middle Passage contrasts sharply with the silence that normally cloaks the subject within Ghana Why do Ghanaians suppress the history of enslavement And why is this history expressed so differently on the other side of the Atlantic *Routes of Remembrance* tackles these questions by analyzing the slave trade's absence from public

versions of coastal Ghanaian family and community histories its troubled presentation in the country's classrooms and nationalist narratives and its elaboration by the transnational tourism industry Bayo Holsey discovers that in the past African involvement in the slave trade was used by Europeans to denigrate local residents and this stigma continues to shape the way Ghanaians imagine their historical past Today however due to international attention and the curiosity of young Ghanaians the slave trade has at last entered the public sphere transforming it from a stigmatizing history to one that holds the potential to contest global inequalities Holsey's study will be crucial to anyone involved in the global debate over how the slave trade endures in history and in memory
