earliest days parents get the message that they must make certain choices around feeding sleep and schedule or all will be lost There s a rule or three for everything But the benefits of these choices can be overstated and the trade offs can be profound How do you make your own best decision Armed with the data Oster finds that the conventional wisdom doesn t always hold up She debunks myths around breastfeeding not a panacea sleep training not so bad potty training wait until they re ready or possibly bribe with M Ms language acquisition early talkers aren t necessarily geniuses and many other topics She also shows parents how to think through freighted questions like if and how to go back to work how to think about toddler discipline and how to have a relationship and parent at the same time Economics is the science of decision making and Cribsheet is a thinking parent s guide to the chaos and frequent misinformation of the early years Emily Oster is a trained expert and mom of two who can empower us to make better less fraught decisions and stay sane in the years before preschool
