

Animal Farm Revision Guide

Chapter I

After lights out, all the animals gather in the big barn to hear old Major communicate his strange dream of the previous night. Before doing so, he imparts his life learnings: that the existence of animals is one of toil and drudgery and that Man is the enemy; if animals are to ever achieve better lives then they must unite against Man. A vote is held to ascertain whether wild creatures such as rats should be considered comrades; though an overwhelming majority votes that they are, there are a few in opposition.

His dream was the remembrance

Power and Control

Power means to many things:

- political power and government;
- strength, resistance and physical prowess;
- knowledge and wisdom (power to the people).

Power is not in itself a bad thing, but with great power comes great responsibility... who might imagine who would have the right to exercise the control of power? And should it be? If only one, and simply, if Peder Pedersen's Uncle Ben had been the farmer then it might have been an entirely different story.

Orwell's primary concern is the abuse of power. Starting with his parody of the deluged German regime, there is the power and thereby makes animals. Even with their own weapons, he is unable to take to force upon the animals who have more than their power than the other animals are willing to risk their lives for the principles of Animalism. But then there is to be turned into a functioning system of government and the animals are introduced to power and then control the other animals. All power is gradually given to them, but even without the pigs there is a hierarchy, hence the growing between Snowball and Napoleon to win hearts and minds. Ultimately, Napoleon triumphs by taking the responsibility to the power. There is, however, no consideration for the animals and the power of both force and thought, making him even more powerful and controlling than the pigs ever were, and the real tragedy is that the idea of Animalism gives the rest of the farm the experience of having power at the same time that Napoleon is abusing it.

It is ironic that Napoleon gains absolute power, which has been the most absolute power.

Context

As we have already seen, Napoleon's rise to power mirrors that of Stalin, who stepped out of the shadow of more established powers such as Lenin (the first leader of the Soviet Union) and Khrushchev (the second to succeed him) and the Great Purge of 1937. Stalin eliminated and replaced his opposition in a campaign of terror that ultimately resulted in the loss of about 200,000 to 3,000,000 of his own people. He also replaced the editor of Pravda and began to renege on the other 500,000,000 Soviet citizens to support him. His tyranny went largely unchallenged until his death, when in 1956, Khrushchev gave a speech in which he said that about 200 people were
