Georgia Medicaid Provider Manual:

Crisis Services: Effectiveness, Cost-Effectiveness, and Funding Strategies U.S. Department of Health and Human Services, 2019-11-23 Crisis Services are a continuum of services that are provided to individuals experiencing a psychiatric emergency. The primary goal of these services is to stabilize and improve psychological symptoms of distress and to engage individuals in an appropriate treatment service to address the problem that led to the crisis. Core crisis services include 23 hour crisis stabilization observation beds, short term crisis residential services, and crisis stabilization mobile crisis services, 24/7 crisis hotlines, warm lines, psychiatric advance directive statements, and peer crisis services. The research base on the effectiveness of crisis services is growing. There is evidence that crisis stabilization, community-based residential crisis care, and mobile crisis services can divert individuals from unnecessary hospitalizations and ensure the least restrictive treatment option is available to people experiencing behavioral health crises. Medicaid Provider Enrollment United States. Congress. House. Committee on Commerce. Subcommittee on Oversight and Investigations, 2000 *Early Medical Abortion, Equality of Access, and the Telemedical Imperative* Jordan A. Parsons, Elizabeth Chloe Romanis, 2021-10-21 Telemedicine has recently become a key focus of healthcare systems globally, heavily influenced by the COVID-19 pandemic and the increased need for remote care pathways. Implementing telemedicine can bring myriad benefits for both patients and providers and has the potential to make a huge impact by improving access to abortion care. In both the United Kingdom and United States, abortion is heavily regulated, exceptionally so when compared to other routine healthcare. This regulation has had the impact of exacerbating the social and geographical circumstances that can make access to abortion services difficult. This book examines telemedical provision of early medical abortion alongside the access barriers created by laws in the United Kingdom and United States. It critically appraises a series of developments in this rapidly evolving subject, providing an up-to-date and well-informed analysis. In doing so, it argues that there is a moral imperative to introduce, retain, or reinstate as applicable telemedical early medical abortion. **Medicare and Medicaid Guide, Transfer Binder**, 1981-07 **Journal of the Medical Association of Georgia** Medical Association of Georgia, 1992 Vols for 1913-54 include the Association's Roster of members.
