Orthopedic Traumatology Manish K. Sethi, A. Alex Jahangir, William T. Obremskey, 2012-08-15 Physicians are under increasing pressure to provide quality health care in the most cost effective way possible The escalating costs of orthopedic care are driving the need to base clinical decision making on evidence based data that will help physicians provide optimal care to every patient Evidence based medicine is the future of orthopedic surgery In a world where the quality of surgical outcomes will be increasingly measured evidence based data will heavily guide decision making in orthopedic trauma Orthopedic Traumatology An Evidence Based Approach provides the reader with a focused and comprehensive review of the literature surrounding the management of the orthopedic trauma patient The book centers around clinical scenarios with each chapter based on a specific case Renowned orthopedic trauma surgeons from across the country serve as contributing authors writing based on these scenarios and giving their expert opinions on management while using data as their guide Each chapter describes and summarizes the data but achieves this objective in a case based format Each case is brief but includes relevant imaging The case scenarios are heavily weighted toward treatment of more controversial injuries As there is currently no book on the market that focuses solely on orthopedic trauma and evidence based medicine this book is sure to be a useful reference for residents and practicing physicians alike

Youth Gambling Jeffrey L. Derevensky, Daniel T. L. Shek, Joav Merrick, 2011-10-27 Youth gambling represents a potentially serious public policy and health issue Nevertheless the rise in youth gambling issues and problems in the global context is not matched with a parallel increase in research on adolescent gambling As such there is an urgent need to conduct more studies on adolescent gambling behaviour Recently significant advances in the knowledge of the risk factors associated with adolescent problems has emerged This book

addresses issues related to prevalence assessment prevention and treatment of youth gambling problems as well as concerns related to technological changes associated with youth problem gambling
