This handy guide also whets the appetite for the local cuisine and culture and gives some historic context to exploration ashore. The fantastic background information with historical and mythological anecdotes gives a richness too often missing from bald pilot guides. Royal Cruising Club no East Med cruiser will want to sail without a copy. *Yachting Monthly* *The Mediterranean Pilot*, 1908 [Mediterranean Almanac 2025/26](#)
Rod and Lucinda Heikell, 2025-02-13. The essential marine data resource for yachts sailing the Mediterranean. The Imray Mediterranean Almanac is published biennially with updates available in a downloadable supplement at the end of the first year. It includes Data waypoints and contacts for all major harbours and marinas throughout the Mediterranean Sea plus Atlantic Islands. Weather sources for radio internet and apps. Information on lights and buoys. Maritime regulations, marine reserves and traffic schemes. Coast radio stations and frequencies. GMDSS safety and distress communications. Harbour plans throughout with the familiar Imray cartography which adds clarity to their use. There are the usual detailed revisions throughout this edition plus many new harbour plans. [Ionian](#)
Rod and Lucinda Heikell, 2023-10-13. Now celebrating its eleventh edition, *Ionian* has once again been thoroughly updated with new photos and plans. Covering the coast and islands southwards from Corfu to Finakounda and eastwards to Mesolongion, this much-loved guide contains more detail of many of the smaller anchorages and harbours than are comprehensively covered in Rod Heikell's *Greek Waters Pilot*. Like its companions *West Aegean* and *East Aegean*, *Ionian* is ideal for charterers and flotilla sailors who are onboard for a relatively short time but also for longer-term cruisers on their own yachts who are looking for additional pilotage and background information for this popular cruising ground. As with all the Heikell guides, *Ionian* not only gives all the essential information you need but also exudes the charm and flavour of this corner of the Mediterranean. Heikell's style is easy to digest and gives pleasure in the details of the history, geography and social circumstances of the places described as well as the essential sailing information. *The Little Ship*. This book as well as being a practical manual on *Ionian* cruising seems to have absorbed much of the author's personal feelings regarding the charm which draws him back to it and any reader who has had a whiff of the magic spell of the Greek islands will sense this and inevitably renew the resolve to return and experience it once again in greater measure. *Nautical Magazine*. Rod Heikell nowadays is to the Mediterranean as gin is to tonic. It is difficult to imagine sailing there without one of his guides. Clear pilot notes, chartlets and plentiful illustrations with entertaining commentaries on each place. Up-to-date observations on local and national regulations. The new edition does not disappoint. If one must choose, I would have no hesitation in recommending Heikell. Cruising Association. Rod has a knack for dropping in snippets of interest and colour to give the reader a feel for the atmosphere of each port or bay. *Yachting Monthly*. Like all Rod Heikell's pilots, it is also a travel guide in its own right. *Ionian Magazine*. The sailing directions are particularly useful when

entering the smaller anchorages and harbours for which little information is to be found on charts and include excellent harbour plans and top quality aerial photographs Flying Fish Magazine Ocean Cruising Club **West Aegean** Rod and Lucinda Heikell,2025-04-16 Rod and Lucinda Heikell's West Aegean covers the coasts and islands near Athens the adjacent islands in the Cyclades and the Eastern Peloponnisos to Monemvasia Also covered is the mainland coast of Greece from Sounion to Volos and the adjacent coast of Evia and the Northern Sporades including Sk athos and Sk pelos West Aegean is a companion guide which provides details of places that are mentioned only lightly in Greek Waters Pilot It is particularly useful for charterers flotilla sailors and others based in the area There is in depth information on getting around places to visit on land and background information which cover topics ranging from food and wine to Greece's Classical past and ancient sites Rod and Lu Heikell's writing is acclaimed and their pilotage notes supported by plans and photographs many of which have been taken by Lu are regarded as the last word on the areas that they cover **Logistics of Warfare in the**

Age of the Crusades John H. Pryor,2016-12-05 How were the Crusades made possible There have been studies of ancient medieval and early modern warfare as well as work on the finances and planning of Crusades but this volume is the first specifically to address the logistics of Crusading Building on previous work it brings together experts from the fields of medieval Western Byzantine and Middle Eastern studies to examine how the marches and voyages were actually made Questions of manpower types and means of transportation by land and sea supplies financial resources roads and natural land routes sea lanes and natural sailing routes all these topics and more are covered here Of particular importance is the attention given to the horses and other animals on which transport of supplies and the movement of armies depended

The Returns of Odysseus Irad Malkin, 1998-11-30 This remarkably rich and multifaceted study of early Greek exploration makes an original contribution to current discussions of the encounters between Greeks and non Greeks Focusing in particular on myths about Odysseus and other heroes who visited foreign lands on their mythical voyages homeward after the Trojan War Irad Malkin shows how these stories functioned to mediate encounters and conceptualize ethnicity and identity during the Archaic and Classical periods Synthesizing a wide range of archaeological mythological and literary sources this exceptionally learned book strengthens our understanding of early Greek exploration and city founding along the coasts of the Western Mediterranean reconceptualizes the role of myth in ancient societies and revitalizes our understanding of ethnicity in antiquity Malkin shows how the figure of Odysseus became a proto colonial hero whose influence transcended the Greek speaking world The return myths constituted a generative

mythology giving rise to oral poems stories iconographic imagery rituals historiographical interpretation and the articulation of ethnic identities Reassessing the role of Homer and alternative return myths the book argues for the active historical function of myth and collective representations and traces their changing roles through a spectrum of colonial perceptions from the proto colonial through justifications of expansion and annexation and up to decolonization
