Mac OS X Panther Killer Tips Scott Kelby, 2003-12-30 Nothin' but sidebars. The hottest collection of cool tips and hidden secrets for the pro who needs results FAST. Not another newbie book. OS X Killer Tips speaks directly to the daily Mac user who needs to get the most out of their Mac NOW. Other such books tend toward fluffiness where Killer Tips is all business. Time is money, and a lot of experienced users find themselves trying to save time by skimming through larger computer books in order to pull out the useful nuggets of info that are often placed within what we call sidebars, i.e. those Note, Tip, Warning boxes. The Killer Tips series was developed by Scott Kelby because he recognized how useful non-beginning technology users find those cool "I didn't know THAT" sidebars that are peppered all over the other computer books out there. This book is all about speed, showing the Mac professional how to get more work done faster while actually increasing quality.

An easy-to-navigate landscape layout featuring a two-column design and illustrated step-by-step instructions make it easy to find a specific task fast and get it done in a flash. Tasks covered include adjusting system preferences, creating and managing user accounts, managing files and folders using the Dashboard, networking wirelessly with AirPort, using iTunes and iPods, connecting to a Windows network, watching videos and DVDs, viewing and organizing pictures with iPhoto, making movies with iMovie, blogging and Web designing with iWeb, and using a Mac account. Published to coincide with Apple's release of Leopard.
