**Essentials of Fire Fighting Textbook** International Fire Service Training Association, 2013 The 6th edition is completely revised for today's firefighters and begins the next 35 years of excellence for the manual and for the firefighters who use it. The 6th edition contains all the information and skills needed to meet the requirements for NFPA 1001 Standard for Fire Fighter Professional Qualifications 2013 Edition. This manual includes all new learning objectives, key terms noted in boxes in the margins of each chapter, case histories, and all new review questions in each chapter designed to enhance a student's understanding. The content is presented in a single column format, proven most effective for reading comprehension for adult learners. Warnings, Cautions, and Safety Alerts emphasize safety at all times for new firefighters mastering basic skills. Skill sheets show safe methods for performing each firefighter skill. Each chapter clearly delineates Fire Fighter I knowledge and skills from Fire Fighter II, addressing each in separate sections of the chapters. Photographs are enhanced with graphics; all illustrations are new and improved. There are additional tables to make content more relevant for visual learners. Appendix A is a correlation matrix for all NFPA 1001 JPRs, referenced to page numbers for each knowledge and skill requirement.

Interrogation of the Fire Service: A Leadership Factor Akwasi M. Maru, 2017-09-11

What are some issues facing the fire service? What is causing firefighter deaths? What are some training challenges in the fire service? How can fire service leadership be improved? What is the future of fire service? Akwasi Maru interrogates the fire service through a series of questions. He then provides answers based on quantitative and qualitative data. The fire service has many issues facing it today, such as firefighters' risk of cancer, yet the number one cause of firefighter's death is not cancer. Fire Departments from around the country are laying off firefighters and closing fire stations, but how does this affect response time and civilian deaths? Training divisions lack funds and staffing to train personnel effectively. Maru explains how the leadership of officers and chiefs could blind their decisions due to their personal beliefs, such as sexism, racism, narcissism, the white shirt syndrome, and their inability to adapt to change. With all the current issues, what is the future of the Fire Service?
