Journeys Too Far Away:

The Planets Are Very, Very, Very Far Away: A Journey Through the Amazing Scale of the Solar System Mike Vago, 2024-02-27 The solar system unfolds before your eyes in this cheeky myth busting book grounded in real math Quick Picture the solar system Do you see nine planets on tidy rings around the Sun Then you have been lied to It's not without reason We have to draw the solar system that way to fit it on a place mat or a lunch box or into an ordinary book But that familiar diagram is wrong about almost everything and so this is no ordinary book Seven double gatefold pages open out not once but twice capturing our planetary neighbors at scale At a 100 000 000 000 to 1 scale the Sun is about the size of a dime And five feet away from the Sun we find Earth the size of a pinhead A hundred billion to one scale is not nearly small enough to fit our solar system into a book or onto a soccer field How small do we need to go Unfold the next three spreads to find out

No Journey Too Far Carrie Turansky, 2021-06-08 A family long divided a mysterious trunk and a desperate journey across the ocean all in the name of love The epic saga of the McAlisters continues in this riveting sequel to *No Ocean Too Wide* In 1909 Grace McAlister set sail for Canada as one of the thousands of British Home Children taken from their families and their homeland Though she is fortunate enough to be adopted by wealthy parents the secrets of her past are kept hidden for ten years until someone from her long buried childhood arrives on her doorstep With this new connection to her birth family will she be brave enough to leave her sheltered life in Toronto and uncover the truth After enduring hardship as an indentured British Home Child Garth McAlister left Canada to serve in World War I His sweetheart Emma Lafferty promised to wait for his return but after three long years apart her letters suddenly stopped When Garth arrives home from the war to unexpected news he is determined to return to Canada once more on a daunting mission to find the two women he refuses to abandon his long lost sister and his mysteriously missing sweetheart **Too Far from the Path** Tamara

Severson, 2024-02-27 A fresh and truthful story about the inner workings of schizophrenia In this memoir Tamara goes deep into the world of madness and shares the experience of prolonged psychosis Coupled with the artwork that she created this story is a great read for people with schizophrenia caregivers and mental health workers Anyone who knows someone who has schizophrenia should read this book While you travel into the depths of psychotic thinking to understand the delusional world of a person with schizophrenia this book keeps you entertained and engaged It is a detailed expression that tells the real life story of slipping into and then out of madness Tamara goes on to explain what it's like to live with schizophrenia and the prejudice that she faces on a day to day basis The discrimination from even people who are close to her is evident and goes to show that fighting stigma around schizophrenia is a never ending battle Tamara is adamant that all people with schizophrenia can recover with the right medication and support Her story is an example of how even in extreme cases schizophrenia can be managed with the right medications and doses It took more than 5 years for Tamara to fully recover from this tragic illness in the end she was in a better place than before the onset of psychosis **Images from a Long**

Journey Kai Woehler, 2010-03-31 How This Book Came About This book is in some sense the soul underlying an earlier book that I had written a book about modern science which had the title The Search for the Meaning of Space Time and Matter The book was written for people with interest in modern science It had the subtitle Images from Many Travels The subtitle of that earlier book and the final decision to write it had its origin in a restless wanderlust which in the last twenty years has driven me irresistibly to travel to the most remote places on earth I traveled into the Arctic the waters between North Norway and Svalbard to Tibet over the plateau to the foot of Mount Everest to North India to the remote monasteries in the Ladakh along the Silk Road around the Taklimakan Desert into Inner Asia to Timbuktu at the edge of the Sahara to the Antarctic and to the Skeleton Coast in Namibia These journeys were driven by the urge to somehow grasp the whole world and make it my own It was the Brahma in me who is creating a world in himself in his mind It is Odysseus in me Faustus the restless forever searching until his life dissolves I had to wander the many roads that all led to the same place that vastly complex unfolding essence of Being in all its colors and textures and shapes I had to go and see this wonderful tapestry of life that is of deep inner beauty even in its squalor its suffering and pain and the dirty ugliness that I saw on some of these travels I had to wander to fully accept all that life is into myself to feel at home on the earth That same kind of yearning had driven me in my youth to discover the mysteries of space of time and of matter After WWII at age sixteen I had acquired rudimentary knowledge of Heisenberg's and Einstein's attempts to create that all encompassing unified theory that captures the observed phenomena of space and the world of the elementary building blocks of matter A sort of obsession to learn all that is known about these things 8 Kai Woehler accompanied me on my journey to study physics spending some years in Heisenberg's institute and eventually after circuitous routes teaching physics at a graduate school for military officers at the California coast The above mentioned book then is somewhat of an amalgam of these two kinds of journeys during my life Many dear nonscientist friends took an interest in that book and I recommended to them to just read the first and the last chapters which carry more of my personal reflections about our lives in this cosmos The final impetus to write this separate book which is in your hands was the fact that as an orderly circumspect person I had put my worldly affairs in order sometime ago under the title The Kai X File containing instructions for the executor of my will in the case of my departure This file contains a letter which was to be my farewell letter to my closer friends to be sent instead of some standard obituary notice The file contains many other writings some short others not so short reflections about my life writings which did not have a good place in that first book mentioned above This then led to this book It is a collection of thoughts essays some poems of my own some other poems that were important to me some of them German poems which I have translated into English as I could some dreams that had great meaning in my life The above mentioned farewell letter is now at the very end of this second book The items in each chapter were collected over a span of time and there are themes to which I returned often So there are some duplications of Kai's sayings in this book but I will leave them as they are and hope you understand I

am somewhat arbitrarily terminating the collection now while I am still here and reasonably coherent and I will share this collection with you my friends when there is a good time for this And just a Travels not far from home Aubin St.
