is Australia where the embryonic and contested nature of proportionality means it provides an illuminating study of how facts can inform the framing of constitutional tests The rich proportionality jurisprudence from Germany Canada and South Africa is used to contextualise the approach of the High Court of Australia and to identify future directions for proportionality in Australia at a time when the doctrine is in its formative stages The book has three broad aims First it considers the role of facts within proportionality reasoning Second it offers procedural insights into fact finding in constitutional litigation Third the book s analysis of the dynamic Australian case law on proportionality means it also serves to clarify the nature and status of proportionality in Australia at a critical moment Since the 2015 decision of *McCloy v New South Wales* where four justices supported the introduction of a structured three part test of proportionality the Court has continued to disagree about the utility of such a test These developments mean that this book with its doctrinal and comparative approach is particularly timely
