LACAME 2012 César Augusto Barrero Meneses, Edson Passamani Caetano, Claudia E. Rodríguez Torres, Carmen Pizarro, Ligia Edith Zamora Alfonso, 2014-03-27 Proceedings of the Thirteenth Latin American Conference on the Applications of the Mossbauer Effect Medellín Colombia November 11-16 2012 The broad scope of the Applications of the Mossbauer Effect to interdisciplinary subjects makes this volume an outstanding source of information to researchers and graduate students who will find the unique results of Mossbauer spectroscopy a valuable aid and complement to their research in conjunction with other techniques In this volume applications to mineralogy catalysis soil science amorphous materials nanoparticles magnetic materials nanotechnology metallurgy corrosion and magnetism have been put together in original works produced by invited speakers and different research teams across the continent Reprinted from Hyperfine Interactions HYPE Volume

**Fire Science and Technology 2015** Kazunori Harada, Ken Matsuyama, Keisuke Himoto, Yuji Nakamura, Kaoru Wakatsuki, 2016-10-04 This book focuses on topics in the entire spectrum of fire safety science targeting research in fires explosions combustion science heat transfer fluid dynamics risk analysis structural engineering and other subjects The book contributes to a gain in advanced scientific knowledge and presents or advances new ideas in all topics in fire safety science Two decades ago the 1st Asia Oceania Symposium on Fire Science and Technology was held in Hefei China Since then the Asia Oceania Symposia have grown in size and quality This book reflecting that growth helps readers to understand fire safety technology design and methodology in diverse areas including historical buildings photovoltaic panels batteries and electric vehicles

The 8th International Conference on Robotic, Vision, Signal Processing & Power Applications Harsa Amylia Mat Sakim, Mohd Tafir Mustaffa, 2014-07-08 The proceeding is a collection of research papers presented at the 8th International Conference on Robotics Vision Signal Processing and Power Applications ROVIS 2013 by researchers scientists engineers academicians as well as industrial professionals from all around the globe The topics of interest are as follows but are not limited to Robotics Control Mechatronics and Automation Vision Image and Signal Processing Artificial Intelligence and Computer Applications Electronic Design and Applications Telecommunication Systems and Applications Power System and Industrial Applications

*Handbook of Research on Recent Developments in Intelligent Communication Application* Bhattacharyya, Siddhartha, Das, Nibaran, Bhattacharjee, Debotosh, Mukherjee, Anirban, 2016-12-12 The communication field is evolving rapidly in order to keep up with society's demands As such it becomes imperative to research and report recent advancements in computational intelligence as it applies to communication networks The Handbook of Research on Recent Developments in Intelligent Communication Application is a pivotal reference source for the latest developments on emerging data communication applications Featuring extensive coverage across a range of relevant perspectives and topics such as satellite communication cognitive radio networks and wireless sensor networks this book is ideally designed for engineers professionals practitioners upper level students and

academics seeking current information on emerging communication networking trends      Precision agriculture '13 John V. Stafford, 2013-09-04 Precision agriculture is now main stream in agriculture and is playing a key role as the industry comes to terms with the environment market forces quality requirements traceability vehicle guidance and crop management Research continues to be necessary and needs to be reported and disseminated to a wide audience This book contains peer reviewed papers presented at the 9th European Conference on Precision Agriculture held in Lleida Spain The papers reflect the wide range of disciplines that impinge on precision agriculture technology crop science soil science agronomy information technology decision support remote sensing and others The broad range of research topics reported will be a valuable resource for researchers advisors teachers and professionals in agriculture long after the conference has finished

**Modern Methods of Construction Design** Ladislav Ševčík, Petr Lepšík, Michal Petrů, Ivan Mašín, Rudolf Martonka, 2014-04-02 This book has been created on the basis of contributions to the 54th International Conference of Machine Design Departments that was held for the 60th anniversary of Technical University of Liberec This international conference which follows a tradition going back more than 50 years is one of the longest running series of conferences held in central Europe dealing with methods and applications in machine design The main aim of the conference was to provide an international forum where experts researchers engineers and industrial practitioners managers and Ph D students could meet share their experiences and present the results of their efforts in the broad field of machine design and related fields The book has seven chapters which focus on new knowledge of machine design optimization tribology experimental methods and measuring engineering analyses and product innovation Authors presented new design methods of machine parts and more complex assemblies with the help of numerical methods such as FEM Research measurements and studies of new materials including composites for energy efficient constructions are also described The book also includes solutions and results useful for optimization and innovation of complex design problems in various industries      **LabVIEW user manual**

, 2000      *Applications of Human-Computer Interaction and Robotics based on Artificial Intelligence* David Christopher Balderas Silva, Pedro Ponce Cruz, Arturo Molina Gutiérrez, Luis Arturo Soriano Avendaño, 2020-01-27 This book provides the bases on AI techniques and offer solutions in modeling pattern recognition clustering and many other problems The text gives a comprehensive coverage of major AI techniques currently available to assist in HCI and Robotics      **Research Anthology on Recent Trends, Tools, and Implications of Computer Programming** Management Association, Information Resources, 2020-08-03 Programming has become a significant part of connecting theoretical development and scientific application computation Computer programs and processes that take into account the goals and needs of the user meet with the greatest success so it behooves software engineers to consider the human element inherent in every line of code they write Research Anthology on Recent Trends Tools and Implications of Computer Programming is a vital reference source that examines the latest scholarly material on trends techniques and uses of various programming applications and

examines the benefits and challenges of these computational developments Highlighting a range of topics such as coding standards software engineering and computer systems development this multi volume book is ideally designed for programmers computer scientists software developers analysts security experts IoT software programmers computer and software engineers students professionals and researchers

**Characterisation of Soft Magnetic Materials Under Rotational Magnetisation** Stanislaw Zurek,2017-11-22 The book presents practical aspects related to

the measurement of rotational power loss in soft magnetic materials The book furthermore focuses on practical aspects of performing such measurements the associated difficulties as well as solutions to the most common problems Numerous practical aspects hands on experience and most commonly encountered pitfalls are heavily discussed in the book The text begins with introduction to magnetism then follows with definitions of measurement methods of rotational power loss from physical viewpoint Two chapters describe and detail the various sensors which can be employed for such measurements as well as all the aspects of designing making and using a magnetising apparatus A synthesis of the likely optimal design of a magnetising apparatus is also given preceded with the full reasoning based on all the research carried out to date Characterisation of Soft Magnetic Materials Under Rotational Magnetisation serves as an excellent starting point for any student having to perform magnetic measurements under rotational magnetisation but also under 1D 2D or 3D excitation Because the methods sensors and apparatus are extensively discussed it will also be a great reference for more senior researchers and experts in the field There is a whole chapter devoted to analysis of measurement uncertainty This subject is rarely published for magnetic measurements which makes it more difficult for all researchers to understand the concepts and methodology used in uncertainty estimation This chapter not only introduces the whole subject but also provides multiple step by step examples which can be easily followed from very simple cases to much more complex ones All equations are presented with full SI units which greatly helps in practical application of the presented methodology Each chapter is written in such a way that it can be studied on its own so that the reader can focus only on the specific aspects as required

*Proceedings of the International Conference on Nano-electronics, Circuits & Communication Systems* Vijay Nath, 2017-03-24 This volume comprises select papers from the International Conference on Nano electronics Circuits Communication Systems NCCS The conference focused on the frontier issues and their applications in business academia industry and other allied areas This international conference aimed to bring together scientists researchers engineers from academia and industry The book covers technological developments and current trends in key areas such as VLSI design IC manufacturing and applications such as communications ICT and hybrid electronics The contents of this volume will prove useful to researchers professionals and students alike *Topics in Modal Analysis II, Volume 6* R.
