Organizational Behaviour Nancy Langton, Stephen P. Robbins, 2007 *Örgütsel Davranış Kuram ve Kavram Sözlüğü* Ali Murat ALPARSLAN, Sema POLATCI, 2023-09-18 Employee Motivation in Saudi Arabia Rodwan Hashim Mohammed Fallatah, Jawad Syed, 2017-11-29 This book investigates the relevance of Maslow's hierarchy of needs as a theory of motivation whilst taking into account variances in culture and individual experiences and perspectives Focussing on higher education the book responds to the call for providing alternative conceptual models other than those originating from the Anglo Saxon world The authors take a contextual approach and use the case of Saudi Arabia to understand motivation in a collectivist highly religious and conservative society of the Middle East Providing empirical findings from a study carried out at two Saudi universities differing in their religious outlook this book reveals a hierarchy of needs that is significantly different from the theory proposed by Maslow Religion culture and gender are explored in detail as the authors investigate the relevance of Maslow's theory in a region that is of growing interest to policy makers and practitioners in North America and Europe offering a truly insightful read to an international audience *Canadian Books in Print 2002* Marian Butler, 2002-02 Canadian Books in Print , 2003 *Inclusive Policing from the Inside Out* Angela L. Workman-Stark, 2017-02-15 This book provides a roadmap for how police services can address incivility in the workplace and become more inclusive from the inside out In the past few years policing has come under increased scrutiny due to a number of police involved shootings and in custody deaths where systemic racism the inability to effectively confront persons suffering from mental illness and excessive use of force have been perceived by civil rights groups to play a significant factor These deaths and the subsequent public outcry have led to various constituents questioning the legitimacy of the police The book incorporates real stories of police officers and case studies of select police organizations A look inside a number of these departments has identified an equal concern for incivility within the workplace in the form of gender and ethnic harassment and discrimination The costs of workplace incivility can be significant as workplace victims are not only likely to decrease their work effort quality of work and their level of commitment to the organization they are also likely to mistreat others in the workplace and to take their frustrations out on those they serve While these costs have a significant impact for police organizations incivility by police officers against members of the public can have a much greater impact in terms of eroding perceptions of police legitimacy This book takes a unique approach in providing a model for police organizations to pursue in becoming more inclusive To this end this book will be very relevant for police practitioners reform advisors researchers and graduate level course in special topics Organizational Systematics Bill McKelvey, 2024-03-29 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was

Transitions of Energy Regimes Holger Berg, 2013 Transitions of energy regimes are phenomena that have profoundly affected economies and civilisations over the last 600 years The shifts from wood to coal from coal to oil and the potential change to another resource that might be pending now have influenced the ways in which we work produce and live Though they are fundamentally influenced and steered by economic forces these changes have seen little analysis from the viewpoint of economic theory This book seeks to contribute to filling this gap To this avail it firstly provides insight into the historical and present transitions that have taken place It then gives an overview of the existing economic approaches to energy regime transitions and develops a new interpretation based on evolutionary economics For this an approach based on complexity theory and complex adaptive systems is created and applied and the mechanisms behind regime changes are interpreted according to this framework The analysis is supported by further research into certain aspects of transitions Historical and present research on resource depletion is compared the working of path dependence in the constitution and decline of the oil regime is analysed and the role of entrepreneurship in a regime change from the oil regime towards a potential renewable energy regime is investigated The book closes with an appraisal of energy regime transitions as a future field of research for evolutionary economics

Modelling Perception with Artificial Neural Networks Colin R. Tosh, Graeme D. Ruxton, 2010-06-24 Studies of the evolution of animal signals and sensory behaviour have more recently shifted from considering extrinsic environmental determinants to intrinsic physiological ones The drive behind this change has been the increasing availability of neural network models With contributions from experts in the field this book provides a complete survey of artificial neural networks The book opens with two broad introductory level reviews on the themes of the book neural networks as tools to explore the nature of perceptual mechanisms and neural networks as models of perception in ecology and evolutionary biology Later chapters expand on these themes and address important methodological issues when applying artificial neural networks to study perception The final chapter provides perspective by introducing a neural processing system in a real animal The book provides the

foundations for implementing artificial neural networks for those new to the field along with identifying potential research areas for specialists
