*Turkish Intelligence and the Cold War* Egemen Bezci, 2019-10-31 Turkish Intelligence and the Cold War examines the hitherto unexplored history of secret intelligence cooperation between three asymmetric partners specifically the UK US and Turkey from the end of the Second World War until the Turkey's first military coup d'état on 27 May 1960 The book shows that our understanding of the Cold War as a binary rivalry between the two blocs is too simple an approach and obscures important characteristics of intelligence cooperation among allies Egemen Bezci shows that a pragmatic approach offers states new opportunities to protect national interests by conducting intelligence diplomacy to influence crucial areas such as nuclear weapons and to exploit cooperation in support of their own strategic imperatives This study not only reveals previously unexplored origins of secret intelligence cooperation between Turkey and West but also contributes to wider academic debates on the nature of the Cold War by highlighting the potential agency of weaker states in the Western Alliance

Henry,2024-09-05 The general believer waiting for salvation by Jesus hopes to see him appear while living or promptly at death Comfort during loss of life usually portrays those passing now in heaven Conversely the more religiously academic the less one thinks anyone ever goes to heaven Trained scholars typically choose a closed heaven with temporal delays and spatial detours in limitation of God s promises about so great salvation Better typically perceives as a resuscitated flesh on earth that lives by decay of the surrounding creation Hearing word meaning by mapping creation with an old first century option for plural heavens this project reexamines the conversation recommended by the pastor in the letter to the Hebrews

about promises regarding the twofold ministry of Christ By analysis with current study tools the conversation both challenges the common academy views and reintroduces a first century hearing option for God s speech concerning prompt postmortem Christ fulfillment into heaven Listening includes the milk of the beginning teaching requirements for atonement and logic of resurrection to God immediately after death and judgment Hearing senses the solid food about priestly intercession by Jesus after death at judgment to shepherd his believers for salvation into heaven a very little while after individual death and judgment

*Framing Refugees* Daniel Drewski, Jürgen Gerhards, 2024-07-17 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations Across the world the number of people forcibly displaced from their homes has more than doubled during the last decade Although international law does not allow states to turn back refugees some countries close their borders to refugees some open their borders and grant extensive protection while others admit some groups of refugees while excluding others How can we make sense of these different responses to admitting refugees In this book Daniel Drewski and Jürgen Gerhards show that governments refugee policy as well as the stance adopted by opposition parties on the issue is heavily dependent on how they frame their country s collective identity on the one hand and the identity and characteristics of the refugees on the other By defining the we and the others politicians draw on collectively shared cultural repertoires which vary by country and by political constituency within a country The book is based on a discourse analysis of parliamentary debates It explores the specific framing of nations identities and the corresponding perceptions of otherness by focusing on six countries that have been confronted with large numbers of refugees Germany Poland and Turkey all responding to the exodus of Syrian and Middle Eastern refugees Chile s reaction to the Venezuelan displacement Singapore and its stance towards Rohingya refugees and Uganda s response to the displacement from South Sudan The study explores

narrow belt structure in the rigid outer layer of the Earth corresponding to subduction zones at lithospheric mantle depths and orogenic belts at crustal depths The type geometry and thermal structure of subduction zones have critical impacts on subduction processes and nature of products resulting in a variety of magmatic rocks and ore deposits at convergent margins Identification and classification of the physical structure and chemical variation at convergent margins as well as confirming their correlation with specific subduction types and stages are of pivotality to understand the spatiotemporal interaction between asthenosphere and lithosphere in orogenic belts For places where magmatic arcs get partially or entirely destroyed by surface and or subduction erosion adjacent sedimentary rocks are ideal geological records for paleotectonic reconstruction

The Queens of the Arabs During the Neo-Assyrian Period Ellie Bennett, 2024-05-03 The title Queen of the Arabs is applied in Neo Assyrian texts to five women from the Arabian Peninsula These women led armies offered tribute and held religious roles in their communities from 738 to

approximately 651 BCE This book discusses what the title meant to the women who carried it and to the Assyrians who wrote about them Whereas previous scholarship has considered the Queens of the Arabs in relation to the military and economic history of the Neo Assyrian empire Eleanor Bennett focuses on identity using gender theory to locate points of the women's alterity in Assyrian sources and to analyze how Assyrian cultural norms influenced the treatment of the Queens of the Arabs This kind of analysis shows how Assyrian perceptions of the Queens of the Arabs and of Arabian populations more generally changed over time As the Queens of the Arabs were located on the periphery of the Assyrian Empire Bennett incorporates data from the Arabian Peninsula The shift from an Assyrian lens to an Arabian one highlights inaccuracies in the Assyrian material which brings into focus Assyrian misunderstandings of the region The Arabian Peninsula also offers comparative models for the Queens of the Arabs based on Arabian cultures
