Seminar paper from the year 2001 in the subject Computer Science General grade A UNITEC New Zealand Departement of
Information Systems and Computing course Intranet and Internet Management language English abstract 1 1 Intranets are
Becoming More and More Popular As the strategic importance of information as a corporate asset to be leveraged for
competitive advantage becomes clearer to senior management the key role played by local area networks LANs to deliver
that precious information to the right place and time has become equally clear Goldman Rawles 2000 p 11 Since Intranets
can provide secure and fast internal communication for companies and since it can save cost at different parts of the
company due to resource sharing for example Intranets become more and more popular among all sizes of companies
Intranet growth even exceeds the rate of Internet growth 1 2 Procedure and Aim of this Report To get their Intranets up and
running companies need competent and highly skilled network administrators They are needed not only to set up the Intranet
but also to maintain it to give user support and to update soft and hardware This report s goal is to lay the foundations for
the skills needed to become a network administrator It can be used as an introduction for new trainee network
administrators Therefore it will explain how to use and test Dynamic Host Configuration Protocol DHCP Windows Internet
Naming Service WINS the Internet Information Server IIS and Proxy servers It will focus on Microsoft products in an
Windows NT 4 0 environment Furthermore the report will explain why these servers and services should be included in a
company s Intranet However the report will not give detailed technical explanations on these services but provide a general
