**FDNY Counterterrorism and Risk Management Strategy** Fire Department of the City of New York (FDNY).,2011

**Out from Under the Rock** Joseph Russo,2017 As highlighted in the 9 11 Commission Report the New York Police Department NYPD and Fire Department City of New York FDNY have suffered from a lack of inter agency communication for many years which is of particular detriment to the safety of front line members of the FDNY This thesis sought to find new solutions to the problem by analyzing the processes and policies driving communications to and within the FDNY and the degree to which they have changed since McKinsey Company s analysis of the department in 2002 A study of organizational change theories including Leavitt s Diamond was used to analyze organizational change issues within the FDNY Synthesizing these theories with the department s successful and failed change attempts produced a set of tasks to create and implement a new technology in the form of a mobile application called FDNY Mobile This thesis concluded that improving information sharing between the FDNY and the NYPD is nearly impossible without first analyzing the information sharing practices of an individual organization Information sharing between these organizations must be reciprocal This thesis found that without creating a sense of urgency and managerial support FDNY Mobile will end in failure Moreover the FDNY needs to strengthen its own information sharing practices before a more detailed focus is made on inter agency information sharing with the NYPD Fire officer's handbook of tactics John Norman,2006 Modern firefighting is a continually evolving science with new technologies constantly being applied to the fire service In the latest edition of this perennial favorite Norman examines these new technologies and how they affect fire ground tactics He also details the new role firefighters play in homeland security Increasing FDNY's Preparedness ,2002 Review of the New York Fire Department s response to the attacks of September 11 2001 based on more than 100 interviews conducted with FDNY responders transcripts of interviews conducted by the Department and dispatch records and communications tapes Recommends changes in the areas of operations planning and management communications and technology and family and member support services
