Education

What you need a good education to succeed in
business?

...the passport to your future". This quote may be familiar to many, showing how high for one to build a bright future and attain success in life. With a traditional education one gets the highest the pay and the better the standard of living. In our modern society, this statement may not hold entirely true, especially with the rise of an extensive social platform and many other unconventional ways that do not require an extensive social platform. Even though debatable, I still advocate with the change in their trade. Below we will discuss how education might not be that necessary in third world countries to break the vicious cycle.

"The appreciation of the arts makes us human." Do you agree?

Humans are the only beings capable of expressing free will and creativity, and are the only ones with the ability to create from imagination alone. Though some may dismiss the appreciation of the arts as a frivolous pastime or an exclusive activity within the confines of the artistic community, it is what makes us human as it defines the human capacity to create. The appreciation of the arts allows us to reflect on the human condition as it provides social commentary, and allows us to express individuality as well. At the same time, it creates a sense of cultural identity that is not grounded with one another, thus forming cultural communities that share a common sense of purpose. Therefore, the appreciation of the arts is definitely what makes us human. Do you agree?
