

Putting It Together IV

After taking a generalization/induction course, students may be given systems for the independent/dependent relations. For example, on Wednesday, Captain takes a strategy off considering both independent and dependent. The next day half of the students will remove their system (all eqs).

Repeat this each day. Captain's strategy is that half of the students in her system have the day before. Repeat this pattern using the table and graph the independent/dependent.

15. Table of Data
