**Teaching Authentic Language Arts in a Test-Driven Era** ,      **The Gun and the Pen** Keith Gandal,2010-05-06 Ernest Hemingway F Scott Fitzgerald and William Faulkner stand as the American voice of the Great War But was it warfare that drove them to write Not according to Keith Gandal who argues that the authors famous postwar novels were motivated not by their experiences of the horrors of war but rather by their failure to have those experiences These quintessential male American novelists of the 1920s were all for different reasons deemed unsuitable as candidates for full military service or command As a result Gandal contends they felt themselves emasculated not as the usual story goes due to their encounters with trench warfare but because they got nowhere near the real action Bringing to light previously unexamined Army records including new information about the intelligence tests The Gun and the Pen demonstrates that the authors frustrated military

ambitions took place in the forgotten context of the unprecedented U S mobilization for the Great War a radical effort to transform the Army into a meritocratic institution indifferent to ethnic and class difference though not to racial difference For these Lost Generation writers the humiliating failure vis a vis the Army meant an embarrassment before women and an inability to compete successfully in a rising social order against a new set of people The Gun and the Pen restores these seminal novels to their proper historical context and offers a major revision of our understanding of America s postwar literature Handbook of Income Distribution Anthony B. Atkinson,Francois Bourguignon,2014-12-30 What new theories evidence explanations and policies have shaped our studies of income distribution in the 21st century Editors Tony Atkinson and Francois Bourguignon assemble the expertise of leading authorities in this survey of substantive issues In two volumes they address subjects that were not covered in Volume 1 2000 such as education health and experimental economics and subjects that were covered but where there have been substantial new developments such as the historical study of income inequality and globalization Some chapters discuss future growth areas such as inheritance the links between inequality and macro economics and finance and the distributional implications of climate change They also update empirical advances and major changes in the policy environment The volumes define and organize key areas of income distribution studies Contributors focus on identifying newly developing questions and opportunities for future research The authoritative articles emphasize the ways that income mobility and inequality studies have recently gained greater political significance

### **Multicultural Curriculum Transformation in Literacy and Language Arts**

Amanda VandeHei-Carter, Nayelee Villanueva, Christine Clark, 2021-10-06 This book focuses on multicultural curriculum transformation in literacy and language arts subject areas. The discussion of each area outlines critical considerations for multicultural curriculum transformation for the area by grade level and then by eight organizing tools including content standards relationships with and among students and their families and evaluation of student learning and teaching effectiveness. The volume is designed to speak with PK-12 teachers as colleagues in the multicultural curriculum transformation work. Readers are exposed to things to think about but also given curricular examples to work with or from in going about the actual concrete work of curriculum change. This work supports PK-12 teachers to independently multiculturally adapt existing curriculum to create new multicultural curriculum differentiated by content areas and grade levels and by providing ample examples of what such multicultural transformed literacy and language arts curricula looks like in practice. □□□□□□□□, 2003
