It represents the experience of years of practice in hospital pharmacy in more than five middle east countries. The majority of the information is focused at real subjective situations encountered in every day practice. Every effort has been made to ensure that the information contained in this book is correct, but no liability can be accepted for any inaccuracies or mis-statements of fact contained herein, and any feedback is very welcomed. International Best Practices for Evaluation in the Health Professions William McGaghie, 2022-02-16 This unique text presents a comprehensive narrative on why and how health professions students need to be evaluated for practice in the 21st century.
