Discourse Features of New Testament Greek Stephen H. Levinsohn, 2025-03-31 This coursebook is designed to be used in connection with lectures and discussion groups or in a self instruction environment The book takes a functional approach and builds on the principle that choice implies meaning Each chapter presents one or more discourse features of Koine Greek that have been shown to make a significant contribution to the exegesis of the Greek New Testament Part I discusses default orders of constituents in clauses sentences and phrases together with the significance of marked orders Part II identifies the constraint that each common conjunction imposes on how readers are to relate the sentence concerned to its context Part III considers patterns of reference including why once participants have been introduced they are sometimes referred to only in the verb and sometimes by means of a pronoun or noun phrase as well It also addresses the significance of omitting the article when referring to activated participants or concepts Part IV describes some features that have the effect of backgrounding or highlighting information such as the encoding of information in a participial or relative clause and the use of the historical present Part V considers how different ways of introducing reported speeches reflect their status in stories It also discusses the motivations for reporting conversation directly versus indirectly and the significance of introducing direct speech with recitativum The final part reviews criteria that may be cited to support or reject the segmenting of passages into sub units Readers need a basic knowledge of introductory Greek and discourse analysis All examples in the text are provided with a word by word translation Review questions and suggested answers are provided to assist in applying the principles In this edition the content has been extensively reviewed and polished including errata corrections from the prior edition

Garland,2003-11-01 Paul s first letter to the Corinthians is one of the most important epistles in the New Testament David Garland s thoughtful new commentary draws on extensive research and engages the best of contemporary scholarship while providing a readable study that will be accessible to thoughtful readers as well as students pastors and scholars After considering the context of the letter and the social and cultural setting of Corinth Garland turns to his exegetical work An introduction to each major unit of thought is followed by the author s own translation of the Greek text In the course of his verse by verse commentary he incorporates references to other ancient writings that help explain particular aspects of Paul s meaning or provide information on the social and cultural context He also refers to the work of other commentators and provides extensive notes for further reading and research **Paul's Emotional Regime** Ian Y. S. Jew,2020-10-15 In his letters Paul speaks often of his emotions and also promotes certain feelings while banishing others This indicates that for Paul emotion is vital However in New Testament studies the study of emotions is still nascent current research in the social sciences highlights its cognitive and social dimensions Ian Y S Jew combines rigorous social scientific analysis and exegetical enquiry to argue that emotions are intrinsic to the formation of the Pauline communities as they encode belief structures and influence patterns of social experience By taking joy in Philippians and grief in 1 Thessalonians as representative emotions and contrasting Paul s approach with that of his Stoic contemporaries Jew demonstrates that authorized feelings have socially integrating and differentiating functions by reinforcing the shared theological realities upon which emotional norms are based group

belonging is bolstered Simultaneously authorized emotions fortify the theological boundaries between Christians and others which strengthens group solidarity in the Church by accentuating its members insider status Using this framework heuristically Jew explores how the interplay of symbolic ritual and social elements within Paul s eschatological worldview reinforces emotional norms and demonstrates that attention to emotion can only deepen our understanding of the social formation of the early believers *Rhetorical Criticism and the Bible* Stanley E. Porter, Dennis Stamps, 2002-03-01 This volume is the fifth in a series that explores the use of rhetoric in the study of biblical literature Contributions from scholars in North America Britain Continental Europe and South Africa focus here on four major categories The Theory of Rhetoric and Biblical Interpretation Rhetorical Interpretation of Luke s Gospel and Acts The Rhetorical Interpretation of Paul s Writings and Rhetorical Interpretation of Hebrews and Ignatius Author include Tom Olbricht Douglas Campbell Arthur Gibson Craig Evans Vernon Robbins Greg Bloomquist Pieter Botha Paul Danove Gerrie Snyman Anders Eriksson K K Yeo Lauri Thuren G A van den Heever Marc Debanne J N Vorster and the editors *1 Maccabees* Daniel R. Schwartz, 2022-04-26 A new translation and commentary on I Maccabees that offers a fresh interpretation of the author s values and purpose First Maccabees composed in the second century BCE chronicles four decades of clashes between Hellenistic Syria and Judea from Antiochus Epiphanes s ascent to the throne in 175 BCE to the Hasmoneans establishment of an independent Judean state ruled by Simon and his sons In this volume Daniel R Schwartz provides a new translation of the Greek text and analyzes its historical significance In dialogue with contemporary scholarship the introduction surveys the work s themes sources and transmission while the commentary addresses textual details and issues of historical reconstruction often devoting special attention to the lost Hebrew original and its associations Schwartz demonstrates that 1 Maccabees despite its Hebraic biblical style and its survival within the Christian canon deviates from biblical and Judaic works by marginalizing God evincing scorn for martyrs and ascribing to human power and valor crucial historical roles This all fits its mandate justification of the Hasmonean dynasty especially the Simonides **The Gospel of Matthew** John Nolland, 2005-11-01 Having devoted the past ten years of his life to research for this major new work John Nolland gives us a commentary on the Gospel of Matthew that engages with a notable range of Matthean scholarship and offers fresh interpretations of the dominant Gospel in the history of the church Without neglecting the Gospel s sources or historical background Nolland places his central focus on the content and method of Matthew s story His work explores Matthew s narrative technique and the inner logic of the unfolding text giving full weight to the Jewish character of the book and its differences from Mark s presentation of parallel material While finding it unlikely that the apostle Matthew himself composed the book Nolland does argue that Matthew s Gospel reflects the historical ministry of Jesus with considerable accuracy and he brings to the table new evidence for an early date of composition Including accurate translations based on the latest Greek text detailed verse by verse comments thorough bibliographies for each section and an array of insightful critical approaches Nolland s Gospel

of Matthew will stimulate students preachers and scholars seeking to understand more fully Matthew's presentation of the gospel narrative

Christ as the Telos of Life Bradley Arnold, 2014-08-27 Bradley Arnold examines Paul's argument in his letter to the Philippians. He looks particularly at how this argument is structured similarly to the pattern of thinking in ancient moral philosophy: utilizes athletic imagery within this argumentative framework and employs a rhetorical practice known as vivid description.

Jews, Gentiles and Ethnic Reconciliation Tet-Lim N. Yee, 2005-03-10 Much scholarship has focused on Paul's insistence on Gentile membership of the people of God equally with Jews. Dr Yee's study of Ephesians 2 reveals how the distinctively Jewish world view of the author of Ephesians underlies this key text. He explores how the Ephesians author provides a resolution to one of the thorniest issues regarding two ethnic groups in the earliest period of Christianity: can Jew and Gentile, the two estranged human groups, be one people of God and if so how? Setting Ephesians 2 as fully as possible into its historical context, he describes some of the relevant Jewish features and demonstrates them, revealing many explosive but hidden issues. This book provides an important contribution to the continuing reassessment of Christian and Jewish self-understanding in regard to each other during the critical period of the latter decades of the first century CE.

Sister Or Wife? J. Dorcas Gordon, 1997-11-01 This work investigates the social dynamics within the Corinthian community and the function of Paul's argumentation in the light of those dynamics. The models of Victor Turner and Mary Douglas, cultural anthropologists, guide the inquiry. Gordon concludes that the conflict in 1 Corinthians 7 arose as the result of two antithetical views of the root metaphor. In Christ, all are children of God, no male and female. One group supported a kinship system based on patrilineal marriage and hierarchical community structures. A second group demanded that an egalitarian sibling relationship should order the community. Paul attempts to persuade both factions that their commitment to each other and to him is primary. His arguments encourage each group to reconsider the absoluteness of its stance and to learn to live with ambiguity.
