The Egyptians used three types of writing: hieroglyphics, hieratic, and demotic. The hieratic and demotic writing systems were simplified forms of hieroglyphics that scribes used to write quickly. Egyptians created over 700 hieroglyphs. Each was like a little drawing. Some were pictures of the items for which they represented, while others were sounds or groups of letters. Most people did not read or write in ancient Egypt. Scribes learned hieroglyphics from a young age. They wrote information on papyrus, a type of paper made from reeds. It was then rolled up. The chart above shows the letters used by scribes.
