

Writing a Philosophy Paper

Copyright © 1993 by [Peter Horban](#)
Simon Fraser University

Good writing is the product of proper training, much practice, and hard work. The following remarks, though they will not guarantee a top quality paper, should help you determine where best to direct your efforts. I offer first some general comments on philosophical writing, and then some specific "do"s and "don't"s.

One of the first points to be clear about is that a philosophical essay is quite different from an essay in most other subjects. That is because it is neither a research paper nor an exercise in literary self-expression. It is not a report of what various scholars have had to say on a particular topic. It does not present the latest findings of tests or experiments. And it does not present your personal feelings or impressions. Instead, it is **a reasoned defense of a thesis**. What does that mean?

Above all, it means that there must be a **specific point that you are trying to establish** - something that you are **trying to convince the reader to accept** - together with grounds or justification for its acceptance.

Before you start to write your paper, you should be able to state exactly what it is that you are trying to show. This is harder than it sounds. It simply will not do to have a rough idea of what you want to establish. A rough idea is usually one that is not well worked out, not clearly expressed, and as a result, not likely to be understood. Whether you actually do it in your paper or not, you should be **able to state in a single short sentence precisely what you want to prove**. If you cannot formulate your thesis this way, odds are you are not clear enough about it.

The next task is to **determine how to go about convincing the reader that your thesis is correct**. In two words, your method must be that of **rational persuasion**. You will present arguments. At this point, students frequently make one or more of several common errors. Sometimes they feel that since it is clear to them that their thesis is true, it does not need much argumentation. It is common to overestimate the strength of your own position. That is because you already accept that point of view. But how will your opponent respond? It is safest to assume that your reader is intelligent and knows a lot about your subject, but disagrees with you.

Another common mistake is to think that your case will be stronger if you mention, even if briefly, virtually every argument that you have come across in support of your position. Sometimes this is called the "fortress approach." In actual fact, it is almost certain that the fortress approach will not result in a very good paper. There are several reasons for this.

First, your reader is likely to find it difficult to keep track of so many different arguments, especially if these arguments approach the topic from different directions.

Second, the ones that will stand out will be the very best ones and the very worst ones. It is

How To Write A Philosophy Paper For Dummies

Chanh Phan

How To Write A Philosophy Paper For Dummies:

Research Papers For Dummies Geraldine Woods, 2002-07-05 From blank page to final draft this is your straightforward guide to research papers You're sitting at your desk in a classroom or in an airless cubicle wondering how many minutes are left in a seemingly endless day when suddenly your teacher or supervisor lowers the boom She wants a research paper complete with footnotes and a list of sources She wants accuracy originality and good grammar And gasp she wants ten pages You may be 16 years old or 60 years old but your reaction is the same Help Take heart A research paper may seem daunting but it's a far from impossible project to accomplish Turning research into writing is actually quite easy as long as you follow a few proven techniques And that's where *Research Papers For Dummies* steps in to help In this easy to understand guide you find out how to search for information using both traditional printed sources and the electronic treasure troves of the Internet You also discover how to take all those bits of information discarding the irrelevant ones and put them into a form that illustrates your point with clarity and originality Here's just a sampling of the topics you'll find in *Research Papers For Dummies* Types of research papers from business reports to dissertations The basic ingredients of a paper Introduction body conclusion footnotes and bibliography Note taking methods while doing research Avoiding plagiarism and other research paper pitfalls Defining your thesis statement and choosing a structure for your paper Supporting your argument and drawing an insightful conclusion Revising and polishing your prose Top Ten lists on the best ways to begin your research online and in print *Research Papers For Dummies* also includes an appendix that's full of research paper ideas if you're stuck If you're tasked with writing a research paper chances are you already have a lot of demands on your time You don't need another huge pile of papers to read This book can actually save you time in the long run because it gives you the easiest fastest and most successful methods for completing your paper

Natural Philosophy for Beginners Isaac Todhunter, 1877 **Methods of Doing Eastern Philosophies** Chanh Phan, *Multiverse Deism* Leland Harper, 2020-05-28 Given recent work in quantum physics suggesting that our world is just one world in a series of many Leland Royce Harper calls for a shift in our concept of the monotheistic God of Judeo-Christian tradition In *Multiverse Deism* Shifting Perspectives of God and the World Harper argues that those who wish to maintain that the Judeo-Christian God exists ought to revise how they define this God and what they expect of Him so as to maintain consistency between modern theism and the growing body of scientific knowledge While this revision entails several concessions by the theist the overall result is a stronger and more coherent account of who God really is By removing the expectation that God will act in the natural world Harper argues that we are left with a concept of God that maintains all of the traditional divine attributes is consistent with current scientific advances remains compatible with contemporary and historical arguments for the existence of God and better refutes contemporary and historical arguments for atheism than the traditional active God

The Political Science Student Writer's Manual and Reader's Guide Gregory M. Scott, Stephen M. Garrison, 2016-09-22 The Political Science

Student Writer's Manual and Reader's Guide is a practical guide to research reading and writing in political science. The Political Science Student Writer's Manual and Reader's Guide Eighth Edition is a set of instructions and exercises that sequentially develop citizenship, academic, and professional skills while providing students with knowledge about a wide range of political and governmental concepts, phenomena, and information sources. It begins by teaching beginning students to engage newspapers and other political media sources critically and analytically. It focuses on the crafts of writing and scholarship by providing the basics of grammar, style, formats, and source citation, and then introduces students to a variety of rich information resources including the Congressional Record, Federal Register, and the Library of Congress. Students actively apply their knowledge and skills by corresponding with their representatives and commenting on pending government regulations. Part 1 concludes with campaign management, policy analysis, legislation assessment, and similar exercises that develop student skills in observation and proficiency. Part 2 prepares students to research, read, write, review, and critique political science scholarship. Finally, Part 3 teaches advanced students how to investigate public opinion, analyze domestic and international public policies, author amicus briefs, and participate in the universal community that deliberates the continuing rich tradition of political philosophy.

Life Writing William J. Hofmann, 2002-02-04. Why Life Writing? How many times have you looked through the family album and wished there were more pictures of the good old days? William Hofmann's message in *Life Writing* is that there are more pictures, thousands of them, just waiting to be pulled from your memory and written down. Hofmann's clear advice on how to get fresh ideas, how to write a rough draft, or how to use the basic principles of rewriting would be useful to any writer. But his book is specifically for those people who would like to use writing as a tool for preserving their past, for recording their own memories and the memories of their parents and grandparents. From the first sentence to the last page, *Life Writing* is at once supportive and practical, a comprehensive step-by-step guide to gathering your family's folklore and keeping it alive.

Ethics in Practice Hugh LaFollette, 2020-04-28. The bestselling and field-defining textbook which has introduced generations of students to the field of practical ethics, now in a new, fully revised fifth edition. For more than twenty years, *Ethics in Practice* has paved the way for students to confront the difficult ethical questions they will must or do already face. Accessible to introductory students yet sufficiently rigorous for those pursuing advanced study, this celebrated collection encourages and guides readers to explore ethical dimensions of important controversial topics such as euthanasia, environmental action, economic injustice, discrimination, incarceration, abortion, and torture. In combining new and revised modern texts with works of classic scholarship, *Ethics in Practice* equips readers to consider wide-ranging ideas in practical ethics and to understand the historical basis for contemporary developments in ethical theory. Revisions and updates to the new edition of *Ethics in Practice* focus on covering pressing global issues and adding depth to key sections. Many sections have been expanded to offer more thorough coverage of topics in ethical theory. Edited by Hugh LaFollette, highly regarded for his contributions in the field of practical ethics, this important

volume Explores the connections between ethical theory and divisive contemporary debates Includes general and section introductions which map the conceptual terrain making it easy for students to understand and discuss the theoretical and practical dimensions of the issues Offers up to date incisive discussion global local and personal ethical issues Provides original essays new perspectives and revisions of key critical texts Enables instructors to discuss specific practical issues broader groupings of topics and common themes that connect major areas in ethics Already a market leading text for introductory and applied ethics courses the latest edition of Ethics in Practice An Anthology continues to be an essential resource for instructors and students in philosophy departments around the world

Graduate Programs in the Humanities, Arts & Social Sciences 2014 (Grad 2) Peterson's, 2013-11-22 Peterson's Graduate Programs in the Humanities Arts Social Sciences 2014 contains comprehensive profiles of more than 11 000 graduate programs in disciplines such as applied arts design area cultural studies art art history conflict resolution mediation peace studies criminology forensics language literature psychology counseling religious studies sociology anthropology archaeology and more Up to date data collected through Peterson's Annual Survey of Graduate and Professional Institutions provides valuable information on degree offerings professional accreditation jointly offered degrees part time and evening weekend programs postbaccalaureate distance degrees faculty students requirements expenses financial support faculty research and unit head and application contact information There are helpful links to in depth descriptions about a specific graduate program or department faculty members and their research and more There are also valuable articles on financial assistance the graduate admissions process advice for international and minority students and facts about accreditation with a current list of accrediting agencies
