The Routledge Companion to Media and Poverty Sandra L. Borden, 2021-07-19. Comprehensive and interdisciplinary, this collection explores the complex and often problematic ways in which the news media shapes perceptions of poverty. Editor Sandra L. Borden and a diverse collection of scholars and journalists question exactly how the news media can reinforce or undermine poverty and privilege. This book is divided into five parts that examine philosophical principles for reporting on poverty, the history and nature of poverty coverage, problematic representations of people experiencing poverty, poverty coverage as part of reporting on public policy, and positive possibilities for poverty coverage. Each section provides an introduction to the topic as well as a broad selection of essays illuminating key issues and a Q & A with a relevant journalist. Topics covered include news coverage of corporate philanthropy, structural bias in reporting, representations of the working poor, the moral demands of vulnerability and agency, community empowerment and citizen media. The book's broad focus considers media and poverty at both the local and global levels with contributors from 16 countries.
