

CARGO OPERATIONS (CGO)

Definitions of technical terms used in this ISM Section 7, as well as the meaning of abbreviations and acronyms, are found in the IATA Technical Reference Manual for Audit Programmes (ITRM).

Management and Control

Applicability

Section 7 addresses functions within the scope of cargo handling operations, and is applicable to an operator that transports revenue or non-revenue cargo and/or mail. COMAT (Company Material) is non-revenue cargo.

In this section, non-revenue cargo and mail are addressed in the same way as revenue cargo for the purposes of handling, loading, securing and transporting.

Individual provisions in this section begin with a conditional phrase ("If the Operator...") and are applicable to an operator that meets the condition(s) stated in the phrase.

Functions within the scope of cargo handling operations include:

- Cargo and mail acceptance;
- Cargo and mail handling;
- ULD loading/build-up;
- Application of required security measures.

The loading of cargo into the aircraft is addressed in Section 6, Ground Handling Operations (GRH).

Where an operator outsources the performance of functions within the scope of cargo operations to external service providers, the operator retains overall responsibility for such functions, and must demonstrate processes for monitoring applicable external service providers in accordance with CGO 1.10.2.

Security specifications applicable to functions within the scope of cargo operations are located in Section 8 of this manual.

General Guidance

Definitions of technical terms used in this ISM Section 7, as well as the meaning of abbreviations and acronyms, are found in the IATA Reference Manual for Audit Programs (IRM).
