Its Our Military Too By Judith Stiehm:

It's Our Military Too: Women and the U.S Military Judith Stiehm, **It's Our Military Too** Judith Stiehm, 2009 Women serve in help finance and give permission for the activities of this country's armed forces yet those who serve remain unknown and those who are accountable often forget their responsibility Gendering Global Conflict Laura Sjoberg, 2013-08-13 Laura Sjoberg positions gender and gender subordination as key factors in the making and fighting of global conflict Through the lens of gender she examines the meaning causes practices and experiences of war building a more inclusive approach to the analysis of violent conflict between states Considering war at the international state substate and individual levels Sjoberg's feminist perspective elevates a number of causal variables in war decision making These include structural gender inequality cycles of gendered violence state masculine posturing the often overlooked role of emotion in political interactions gendered understandings of power and states mistaken perception of their own autonomy and unitary nature Gendering Global Conflict also calls attention to understudied spaces that can be sites of war such as the workplace the household and even the bedroom Her findings show gender to be a linchpin of even the most tedious and seemingly bland tactical and logistical decisions in violent conflict Armed with that information Sjoberg undertakes the task of redefining and reintroducing critical readings of war's political economic and humanitarian dimensions developing the beginnings of a feminist theory of war **Frontline Feminisms** Marguerite Waller, Jennifer Rycenga, 2004-11-23 First published in 2001 Routledge is an imprint of Taylor Francis an informal company *A Companion to Women's Military History*, 2012-08-17 Military institutions have everywhere and always shaped the course of history but women's near universal participation in them has largely gone unnoticed This volume addresses the changing relationships between women and armed forces from antiquity to the present The eight chapters in Part I present broad scholarly reviews of the existing literature to provide a clear understanding of where we stand An extended picture essay documents visually women's military work since the sixteenth century The book's second part comprises eight exemplary articles more narrowly focused than the survey articles but illustrating some of their major themes Military history will benefit from acknowledging women's participation as will women's history from recognizing military institutions as major factors in molding women's lives Contributors include Jorit Wintjes Mary Elizabeth Ailes John A Lynn Barton C Hacker Kimberly Jensen Margaret Vining D Ann M Campbell Carol B Stevens Jan Noel Elizabeth Prelinger Donna Alvah Karen Hagemann Yehudit Kol Inbar Dorotea Gucciardo and Megan Howatt and Judith Hicks Stiehm *Women Representatives in Britain, France, and the United States* Harriet B. Applewhite, 2016-04-29 This book compares British French and American legislative debates on woman suffrage and women's rights Beginning with an analysis of Tocqueville and J S Mill on the impact of suffrage the book continues with analysis of floor debates comparing gender style the French on parity and the Americans on the ERA and concluding with modern debates **Gendered Wars, Gendered Memories** Ayşe Gül Altınay, Andrea Pető, 2016-04-06 The Introduction of this book

is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com/books/e/9781315584225> The twentieth century has been a century of wars, genocides and violent political conflict; a century of militarization and massive destruction. It has simultaneously been a century of feminist creativity and struggle worldwide, witnessing fundamental changes in the conceptions and everyday practices of gender and sexuality. What are some of the connections between these two seemingly disparate characteristics of the past century? And how do collective memories figure into these connections? Exploring the ways in which wars and their memories are gendered, this book contributes to the feminist search for new words and new methods in understanding the intricacies of war and memory. From the Italian and Spanish Civil Wars to military regimes in Turkey and Greece, from the Armenian genocide and the Holocaust to the wars in Abkhazia, East Asia, Iraq, Afghanistan, former Yugoslavia, Israel and Palestine, the chapters in this book address a rare selection of contexts and geographies from a wide range of disciplinary perspectives. In recent years, feminist scholarship has fundamentally changed the ways in which pasts, particularly violent pasts, have been conceptualized and narrated. Discussing the participation of women in war, sexual violence in times of conflict, the use of visual and dramatic representations in memory research, and the creative challenges to research and writing posed by feminist scholarship, *Gendered Wars, Gendered Memories* will appeal to scholars working at the intersection of military war memory and gender studies, seeking to chart this emerging territory with feminist curiosity.

The Palgrave International Handbook of Gender and the Military Rachel Woodward, Claire Duncanson, 2017-06-27 The Palgrave International Handbook of Gender and the Military provides a comprehensive overview of the multiple ways in which gender and militaries connect. International and multi-disciplinary in scope, this edited volume provides authoritative accounts of the many intersections through which militaries, issues and military forces are shaped by gender. The chapters provide detailed accounts of key issues informed by examples from original research in a wealth of different national contexts. This Handbook includes coverage of conceptual approaches to the study of gender and militaries; gender and the organisation of state military forces; gender as it pertains to military forces in action, transitions and transgressions within militaries; gender and non-state military forces; and gender in representations of military personnel and practices. With contributions from a range of both established and early career scholars, *The Palgrave International Handbook of Gender and the Military* is an essential guide to current debates on gender and contemporary military issues. **Armed Forces and International Security** Jean M. Callaghan, Franz Kernic, 2003 Designed as a textbook and interdisciplinary reference for the social sciences, this volume examines key issues in the current global security agenda and relationships between armed forces and society around the world. The book's concise chapters on a broad range of themes related to national and international security, military sociology and civil-military relations were written by experts from 18 countries. This volume also has a groundbreaking section which, using country studies and regional overviews, discusses civil-military relations, as well as the

most salient theoretical and practical features of current means of democratic control of the armed forces in the early 21st century

Gender and the Military Helena Carreiras, 2006-09-27 This is the first comparative cross national study of the participation of women in the armed forces of NATO countries Along side an analysis of this key topic stands a critique of existing theoretical models and the proposal of a revised analytical framework Unlike previous works this new study employs mixed methodological research design combining quantitative and qualitative data a large N analysis based on general policies and statistical information concerning every country in the sample with more in depth case studies This volume includes original empirical data regarding the presence of women in the armed forces of NATO countries proposes an index of gender inclusiveness and assesses the factors that affect women s military roles The book also presents two new key case studies Portugal and the Netherlands based on both documentary sources and in depth interviews of both men and women officers in the two countries This book will be of great interest to all students and scholars of strategic studies gender and women studies and military history

The Modern American Military David Kennedy, 2013-06-27 The Modern American Military is composed of essays surveying the mission and character of the United States armed forces in the twenty first century

Gender Integration in NATO Military Forces Lana Obradovic, 2016-04-15 Numerous states have passed gender integration legislation permanently admitting women into their military forces As a result states have dramatically increased women s numbers and improved gender equality by removing a number of restrictions Yet despite changes and initiatives on both domestic and international levels to integrate gender perspectives into the military not all states have improved to the same extent Some have successfully promoted gender integration in the ranks by erasing all forms of discrimination but others continue to impede it by setting limitations on equal access to careers combat and ranks Why do states abandon their policies of exclusion and promote gender integration in a way that women s military participation becomes an integral part of military force By examining twenty four NATO member states this book argues that civilian policymakers and military leadership no longer surrender to parochial gendered division of the roles but rather support integration to meet the recruitment numbers due to military modernization professionalization and technological advancements Moreover it proposes that increased pressure by the United Nations to integrate gender into security and NATO seeking standardization and consistency on the international level and women s movements on the domestic level are contributing to greater gender integration in the military Winner of the 2015 ERGOMAS Best Book in Civil Military Relations Award

Soldiers' Stories Yvonne Tasker, 2011-08-08 A comprehensive analysis of the changing representations of military women in American and British movies and TV programs from the Second World War to the present

Kill Talk Janet McIntosh, 2025-05-14 The language used by American military personnel can be intense and confrontational yet the relationship between language and military violence is rarely examined in depth This groundbreaking book offers a unique perspective on how language facilitates the work of combat infantry the state s killable killers Through vivid ethnographic

research Janet McIntosh meticulously traces the nuances of military kill talk as it permeates the vast nervous system of the military from the first exposure to yelling in Marine Corps basic training to the dark humor and nihilistic expressions found in war zones in Vietnam and the Middle East McIntosh reveals how military trainers use language to deindividuate toughen and masculinize recruits while infantry soldiers develop distinct linguistic repertoires and attitudes to suppress empathy dehumanize and racialize the enemy cope with loss and dwell in a moral gray zone Kill Talk also addresses national debates over language use in a diverse world exploring tensions between calls for sensitivity and restraint in military speech and the perception that these can threaten national security The book highlights the contradictions between the rhetoric of military honor and moral integrity and the harsh sometimes depraved language of combatants suggesting that these paradoxes enable military violence yet contribute to moral injury It concludes with an exploration of veteran poets and artists who have found innovative ways to use language and other forms of expression to critique military institutions and begin the process of demilitarizing their psyches

Maneuvers Cynthia Enloe, 2000-02 Enloe outlines the dilemmas feminists around the globe face in trying to craft theories and strategies that support militarized women locally and internationally without unwittingly being militarized themselves Routledge Handbook of Gender and Security Caron E. Gentry, Laura J. Shepherd, Laura Sjoberg, 2018-09-03 This handbook provides a comprehensive look at the study of gender and security in global politics The volume is based on the core argument that gender is conceptually necessary to thinking about central questions of security analytically important for thinking about cause and effect in security and politically important for considering possibilities of making the world better in the future Contributions to the volume look at various aspects of studying gender and security through diverse lenses that engage diverse feminisms with diverse policy concerns and working with diverse theoretical contributions from scholars of security more broadly It is grouped into four thematic sections Gendered approaches to security including theoretical conceptual and methodological approaches Gendered insecurities in global politics including the ways insecurity in global politics is distributed and read on the basis of gender Gendered practices of security including how policy practice and theory work together or do not Gendered security institutions across a wide variety of spaces and places in global politics This handbook will be of great interest to students of gender studies security studies and IR in general

Women, Peace and Security Joan Johnson-Freese, 2018-11-08 This book offers an accessible overview of the multiple interdependent issues related to the Women Peace and Security WPS global agenda The first introductory overview of the WPS agenda as articulated in multiple national and international resolutions statements and initiatives the book provides a link between the general public and security practitioners to an important but still largely unknown set of global objectives regarding gender equality and long term peace and stability Within the context of the changing nature of warfare and through consideration of empirical evidence the volume examines the definitions theoretical underpinnings and methodological challenges associated with WPS It then discusses with more specificity violence against women women

civilians in war the role of women in peacemaking women in the military and in development and women politicians The book concludes with a look to the future and number of action items from the macro to the micro level While challenges and opportunities related to the WPS agenda are global US policy action and inaction related to WPS and gender equality are provided as examples of what politically needs to be done has been done and obstacles to WPS furtherance potentially to be encountered by all countries This book will be of much interest to students of peace studies security studies gender studies and IR

Camp All-American, Hanoi Jane, and the High-and-tight Carol Burke, 2004 A folklorist who taught as a civilian professor at the Naval Academy in Annapolis Maryland for seven years Carol Burke analyzes the military as an occupational folk group arguing that every detail of military culture from the high and tight haircut to the chants sung in basic training is laden with significance Exploring the minute ways that the cult of masculinity persists in all branches of the United States military today Burke unearths fascinating details and offers eye opening anecdotes about basic training military dress and speech the history of the marching chant the disdain some veterans still harbor for Jane Fonda and the colorful and sometimes questionable rituals of military manhood Postulating that culture is made not born Burke urges the military to consciously change its policy of gendered apartheid so it can evolve into the gender race and sexuality neutral democratic institution it needs to be

On the Origins of Gender Inequality Joan Huber, 2015-12-03 In our fast paced world of technology and conveniences the biological origins of women s inequality can be forgotten This book offers a richer understanding of gender inequality by explaining a key cause women s reproductive and lactation patterns Until about 1900 infants nursed every fifteen minutes on average for two years because very frequent suckling prevented pregnancy The practice evolved because it maximized infant survival If a forager child was born before its older sibling could take part in the daily food search the older one died This practice persisted until the modern era because until after the discovery of the germ theory of disease human milk was the only food certain to be unspoiled Lactation patterns excluded women from the activities that led to political leadership During the twentieth century the ancient mode declined and women entered the labor market en masse Joan Huber challenges feminists toward a richer understanding of biological origins of inequality knowledge that can help women achieve greater equality today

Militarized Maternity Megan D. McFarlane, 2021-04-08 The rights of pregnant workers as well as the lack of paid maternity leave have increasingly become topics of a major policy debate in the United States Yet few discussions have focused on the U S military where many of the latest policy changes focus on these very issues Despite the armed forces increases to maternity related benefits servicewomen continue to be stigmatized for being pregnant and taking advantage of maternity policies In an effort to understand this disconnect Megan McFarlane analyzes military documents and conducts interviews with enlisted servicewomen and female officers She finds a policy culture disparity within the military that pregnant servicewomen themselves often co construct making the policy changes significantly less effective McFarlane ends by offering suggestions for how these policy changes can have more

impact and how they could potentially serve as an example for the broader societal debate

Decoding **Its Our Military Too By Judith Stiehm**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its capability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Its Our Military Too By Judith Stiehm Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Its Our Military Too By Judith Stiehm PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to

personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Its Our Military Too By Judith Stiehm PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Its Our Military Too By Judith Stiehm free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.
