There is no Supreme Constitution Koos Malan, 2019-10-08 None of the articles of faith of the South African Constitution is plausible The Constitution is not supreme and entrenched Subject to potent socio political forces it changes continuously and often profoundly regardless of stringent amendment requirements The trite threefold separation of powers is more metaphorical than real and therefore unable to secure effective checks and balances Though institutionally separated with their own personnel and functions the three

powers are ordinarily integrated in a single dominant political leadership committed to achieving the same ideological goals. The bill of individual rights cannot guarantee justice because rights are subject to the ideologically driven exercise of judicial interpretation often with damaging consequences for those relying on the bill of rights. This situation does not only apply to South Africa but to all Constitutions premised on the same articles of faith in this book described as the doctrine of statist individualist constitutionalism. An improved mode of constitutionalism is called for one which is equipped with a sounder system of checks and balances and better endowed towards the achievement of justice through a balanced constitution.

Gender and the Judiciary in Africa Gretchen Bauer, Josephine Dawuni, 2015-10-30 Between 2000 and 2015 women ascended to the top of judiciaries across Africa, most notably as chief justices of supreme courts in common law countries like Ghana, Nigeria, Sierra Leone, Gambia, Malawi, Lesotho and Zambia, but also as presidents of constitutional courts in civil law countries such as Benin, Burundi, Gabon, Niger and Senegal. Most of these appointments was a first in terms of the gender of the chief justice. At the same time, women are being appointed in record numbers as magistrates, judges and justices across the continent. While women's increasing numbers and roles in African executives and legislatures have been addressed in a burgeoning scholarly literature, very little work has focused on women in judiciaries. This book addresses the important issue of the increasing numbers and varied roles of women judges and justices as judiciaries evolve across the continent. Scholars of law, gender politics and African politics provide overviews of recent developments in gender and the judiciary in nine African countries that represent north-east, southern and west Africa, as well as a range of colonial experiences, postcolonial trajectories and legal systems including mixes of common, civil, customary or

sharia law In the process each chapter seeks to address the following questions What has been the historical experience of the judicial system in a given country from before colonialism until the present What is the current court structure and where are the women judges justices magistrates and other women located What are the selection or appointment processes for joining the bench and in what ways may these help or hinder women to gain access to the courts as judges and justices Once they become judges do women on the bench promote the rights of women through their judicial powers What are the challenges and obstacles facing women judges and justices in Africa Timely and relevant in this era in which governmental accountability and transparency are essential to the consolidation of democracy in Africa and when women are accessing significant leadership positions across the continent this book considers the substantive and symbolic representation of women s interests by women judges and the wider implications of their presence for changing institutional norms and advancing the rule of law and human rights
