Guidelines for Laboratory Design Louis J. DiBerardinis, Janet S. Baum, Melvin W. First, Gari T. Gatwood, Anand K. Seth, 2013-04-08 Proven and tested guidelines for designing ideal labs for scientific investigations Now in its Fourth Edition Guidelines for Laboratory Design continues to enable readers to design labs that make it possible to conduct scientific investigations in a safe and healthy environment The book brings together all the professionals who are critical to a successful lab design discussing the roles of architects engineers health and safety professionals and laboratory researchers It provides the design team with the information needed to ask the right questions and then determine the best design while complying with current regulations and best practices Guidelines for Laboratory Design features concise straightforward advice organized in an easy to use format that facilitates the design of safe efficient laboratories Divided into five sections the book records some of the most important discoveries and achievements in Part IA Common Elements of Laboratory Design sets forth technical specifications that apply to most laboratory buildings and modules Part IB Common Elements of Renovations offers general design principles for the renovation and modernization of existing labs Part II Design Guidelines for a Number of Commonly Used Laboratories explains specifications best practices and guidelines for nineteen types of laboratories with three new chapters covering nanotechnology engineering and autopsy labs Part III Laboratory Support Services addresses design issues for imaging facilities support shops hazardous waste facilities and laboratory storerooms Part IV HVAC Systems explains how to heat cool and ventilate labs with an eye towards energy conservation Part V Administrative Procedures deals with bidding procedures final acceptance inspections and sustainability The final part of the book features five appendices filled with commonly needed data and reference materials This Fourth Edition is indispensable for all laboratory design teams whether constructing a new laboratory or renovating an old facility to meet new objectives

*Advanced Decision Making for HVAC Engineers* Javad Khazaii, 2016-08-10 This book focuses on some of the most energy consuming HVAC systems illuminating huge opportunities for energy savings in buildings that operate with these systems The main discussion is on cutting edge decision making approaches and algorithms in decision making under uncertainty genetic algorithms fuzzy logic artificial neural networks agent based modeling and game theory These methods are applied

to HVAC systems in order to help designers select the best options among the many available pathways for designing and the building of HVAC systems and applications The discussion further evolves to depict how the buildings of the future can incorporate these advanced decision making algorithms to become autonomous and truly smart

the HVAC bible has been thoroughly updated to cover the latest code changes equipment and techniques

*HVAC Equations Data and Rules of Thumb 3e* offers all of the information an HVAC student or professional needs in one resource

The book thoroughly explains the expansion of piping systems and temperature limitations of new materials such as polyethylene

polypropylene PVC CPVC and PEX Detailed information is included for all types of facilities including offices hotels hospitals

restaurants commercial spaces and computer rooms This practical handbook reflects all the latest code changes including

the ASHRAE standards and explains how to interpret and put them to use It includes completely updated coverage of new

pumps chillers air handling units cooling equipment boilers and pipe material You will get complete coverage of

sustainability organizations that have become more important since last edition including LEED USGBC Energy Star

Features hundreds of equations and rules for everything from ductwork to air handling systems Includes a brand new

chapter on sound vibration and acoustics Contains an updated list of equipment manufacturers for all products featured
