Romero,2025-05-02 The studies on American artistic production in viceregal times have revolved since their beginnings around the problem of style meaning or attribution among others In recent years hand in hand with a look more attentive to social and cultural issues and to interdisciplinary intersections an inquiry into the materiality of these objects has appeared as unavoidable In this sense *Materia Americana* is a book that for the first time brings together the research of leading art historians chemists physicists curators and museologists concerned with Spanish American art and purports to become a reference book for future works on the subject

Beothuk Christopher Patrick Aylward,2024-09-03 The well known story of the Beothuk is that they were an isolated people who through conflict with Newfoundland settlers and Mi kmaq were made extinct in 1829 Narratives about the disappearance of the Beothuk and the reasons for their supposed extinction soon became entrenched in historical accounts and the popular imagination Beothuk explores how the history of a people has been misrepresented by the stories of outsiders writing to serve their own interests from Viking sagas to the accounts of European explorers to the work of early twentieth century anthropologists Drawing on narrative theory and the philosophy of history Christopher Aylward lays bare the limitations of the accepted Beothuk story which perpetuated but could never prove the notion of Beothuk extinction Only with the integration of Indigenous perspectives beginning in the 1920s was this accepted story seriously questioned With the accumulation of new sources and methods archaeological evidence previously unexplored British and French accounts Mi kmaq oral history and the testimonies of Labrador Innu and Beothuk descendants a new historical reality has emerged

Rigorous and compelling Beothuk demonstrates the enduring power of stories to shape our understanding of the past and the impossibility of writing Indigenous history without Indigenous storytellers **Ocean Circulation and Climate** ,2001-03-27 The book represents all the knowledge we currently have on ocean circulation It presents an up to date summary of the state of the science relating to the role of the oceans in the physical climate system The book is structured to guide the reader through the wide range of World Ocean Circulation Experiment WOCE science in a consistent way Cross references between contributors have been added and the book has a comprehensive index and unified reference list The book is simple to read at the undergraduate level It was written by the best scientists in the world who have collaborated to carry out years of experiments to better understand ocean circulation *Manual of Geology* James Dwight Dana,1880 **The Annual of scientific discovery, or yearbook of facts in science and art** ,1863 *Cultural Grammars of Nation, Diaspora, and Indigeneity in Canada* Christine Kim,Sophie McCall,Melina Baum Singer,2012-05-09 *Cultural Grammars of Nation Diaspora and Indigeneity in Canada* considers how the terms of critical debate in literary and cultural studies in Canada have shifted with respect to race nation and difference In asking how Indigenous and diasporic interventions have remapped these debates the contributors argue that a new cultural grammar is at work and attempt to sketch out some of the ways it operates The essays reference pivotal moments in Canadian literary and cultural history and speak to ongoing debates about Canadian nationalism postcolonialism migrancy and transnationalism Topics covered include the Asian race riots in Vancouver in 1907 the cultural memory of internment and dispersal of Japanese Canadians in the 1940s the politics of migrant labour and the domestic labour scheme in the 1960s and the trial of Robert Pickton in Vancouver in 2007 The contributors are particularly interested in how diaspora and indigeneity continue to contribute to this critical reconfiguration and in how conversations about diaspora and indigeneity in the Canadian context have themselves been transformed *Cultural Grammars* is an attempt to address both the interconnections and the schisms between these multiply fractured critical terms as well as the larger conceptual shifts that have occurred in response to national and postnational arguments **On the Theory and History of Ideological Production** Malcolm K. Read,2023-08-28 *On the Theory and History of Ideological Production* promotes the existence of an ideological unconscious understood primarily as a product of social relations not of the Ideological State Apparatus Attention focuses upon the transition from feudalism to capitalism as theorised by the Spanish Marxist and former student of Althusser Juan Carlos Rodr guez Theorization of the ideological unconscious presupposes a change of terrain from the individual society opposition to a problematic based on the social formation The present text assesses Rodr guez s work alongside that of his contemporaries Fredric Jameson Noam Chomsky Terry Eagleton Roy Bhaskar Slavoj i ek and others **Northernmost Labrador, Mapped from the Air** Alexander Forbes,Osborn Maitland Miller,Noel Ewart Odell,Ernst Cleveland Abbe,1938 *Expeditions of 1931 1932 1935* **A Dictionary, Practical, Theoretical, and Historical of Commerce and Commercial Navigation** John R.
