Lami Des Lois:

L'AMI DES LOIS Société de gens de lettres, 1798 **Culture and Society in France 1789-1848** F. W. J.

Hemmings, 2011-09-28 This book first published in 1987 complements the author's earlier volume on Culture and Society in France 1848-1898. It deals with the interaction of social history and cultural history covering in succession the Revolutionary period, the Napoleonic Empire, the Restoration and the July Monarchy. The scope of the book embraces literature, the drama, poetry and the novel, the art of the Revolution and of Romanticism and to a lesser extent music including the opera, sculpture and architecture. Influential figures such as Jacques-Louis David, Stendhal, Berlioz, Victor Hugo and others have their place in the survey together with others prominent in their time but less well known today. Attention is drawn to phenomena such as the rise of the commercial theatre and the assembling under Napoleon's aegis of the first public art gallery in Europe, the Musée du Louvre. The survey brings together all the disparate strands to present a coherent picture of the cultural life of France as it evolved during the sixty momentous years between the French Revolution and the upheaval of 1848.

Americomania and the French Revolution Debate in Britain, 1789-1802 Wil Verhoeven, 2013-11-12 This book explores the evolution of British identity and participatory politics in the 1790s. Wil Verhoeven argues that in the course of the French Revolution debate in Britain, the idea of America came to represent for the British people the choice between two diametrically opposed models of social justice and political participation. Yet the American Revolution controversy in the 1790s was by no means an isolated phenomenon. The controversy began with the American crisis debate of the 1760s and 1770s which overlapped with a wider Enlightenment debate about transatlantic utopianism. All of these debates were based in the material world on the availability of vast quantities of cheap American land. Verhoeven investigates the relation that existed throughout the eighteenth century between American soil and the discourse of transatlantic utopianism between America as a physical geographical space and America as a utopian/dystopian idea/image.

Medievalism and the Ideologies of the Enlightenment Lionel Gossman, 2019-12-01 Originally published in 1968, the contribution of eighteenth-century Englishmen to the study of medieval life and literature is fairly well known, but it is commonly assumed that in France, the center of Enlightenment, no one with the exception of a few obscure antiquarians was seriously interested in the Middle Ages. Gossman argues that the Enlightenment gave great impetus to medieval studies in France and altered their orientation, removing them from the realm of legal and ecclesiastical dispute and bringing them into a new framework of general history. Concentrating his investigation of Enlightenment medievalists on the most influential of them, La Curne de Sainte Palaye, Gossman describes Sainte Palaye's social and intellectual milieu and follows him in his relations with scholars and philosophes in France and abroad. Voltaire, Montesquieu, Gibbon, Walpole, Muratori and Herder are some of the figures whose paths crossed that of Sainte Palaye. Far from being opposed to philosophie, the medievalists were, Gossman argues, nourished at the same intellectual sources and shared many of the values of the philosophes. The existence of a close

connection between medievalism and the Enlightenment is substantiated by the author's detailed analyses of Sainte Palaye's work in the history literature and language of the French Middle Ages. Although Sainte Palaye had a surprising influence on the literature and historiography of both the eighteenth and nineteenth centuries in France, England, and Germany, eighteenth-century medievalism Gossman argues is best understood not as anticipation of things to come but as part of a complex of ideas and feelings peculiar to the Enlightenment itself.

sweeping history of intimacy and family life in France during the age of revolution. The French Revolution and Napoleonic Wars devastated Europe for nearly a quarter of a century. *The Soldier's Reward* recovers the stories of soldiers and their relationships to family and domestic life during this period, revealing how prolonged warfare transformed family and gender dynamics and gave rise to new kinds of citizenship. In this groundbreaking work combining social, cultural, gender, and military history, Jennifer Ngaiire Heuer vividly describes how men fought for years with only fleeting moments of peace. Combatants were promised promotion, financial gain, and patriotic glory. They were also rewarded for their service by being allowed to return home to waiting families and love interests and with marriages that were arranged and financially supported by the state. Heuer explores competing ideas of masculinity in France as well as the experiences of the men and women who participated in such marriages. She argues that we cannot fully understand the changing nature of war and peace in this period without considering the important roles played by family, gender, and romantic entanglements. Casting new light on a turbulent era of mass mobilization and seemingly endless conflict, *The Soldier's Reward* shows how, from the Revolution through the Restoration, war, intimacy, and citizenship intersected in France in new and unexpected ways.
