left maybe the greatest need plus they are going through the years where they are making many key decisions in rapid order about education careers jobs and perhaps marriage and children But I truly believe anyone from 8 to 100 would learn from the book s lessons I state this because some of my reviewers in their 80 s told me so This I know None of us will ever know everything about most anything We still have plenty to learn Personally I am never going to stop trying to learn Like me others still have that hunger for knowledge and understanding I hope more will join us in that pursuit Never stop learning You won t regret it
