Owners of Norton Commando motorcycles are subjected to considerable confusion surrounding the selection of an appropriate workshop manual from the multitude of originals and reprints that have recently flooded the on line marketplace Many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned In addition they are often advertised for the incorrect series and or model years of motorcycles The Norton Commando model range is especially subjected to incorrect identification by these bedroom sellers and you are encouraged to read the paragraph below to help identify the correct manual for your model During the 1968 to 1978 Commando model run there were 4 different manuals published by the factory The original 52 page 750cc manual part number 06 3062 is applicable to the 1968 to 1970 models ONLY that were fitted with the external rev counter drive and or the Atlas style exhaust refer to ISBN 9781588502421 This original manual was followed by part number 06 3419 which covers the 1970 to 1973 750cc models ONLY The next and most comprehensive manual part number 06 5146 was published in 1973 and the 850cc data was added making this manual applicable to the entire range of 750cc 850cc models from 1970 to 1975 Finally with the introduction of the electric start left side gear change rear disc brake Mark 3 models in 1975 a separate manual part number 00 4224 was published which is specific to the 1975 to 1978 MKIII 850cc series from engine no 325001 frame no F125001 We are pleased to offer this reproduction of the Factory Workshop Manual 06 5146 to owners of the 1970 through 1975 models and we hope that the explanation above removes any doubt regarding which manual is correct for a particular series of Norton Commando model
