Why do we love coffee so much? Well, apart from the fact that it's super delicious, a steaming cup of coffee is the first thing millions of people reach for every morning, and there are a multitude of reasons these people do so on a daily basis. The caffeine in it plays two roles in why people drink coffee. First, the caffeine in coffee helps to get people blood moving and makes them feel energized. Early morning workers tend to rely on their coffee to help them get through their work day. The other reason caffeine is a reason that people drink coffee is that it is addictive. There are many chemicals in coffee that lend to its addictive properties, and caffeine is the main one. Caffeine withdrawal can cause headaches and irritability, and many people prefer not to give up their coffee. Coffee has become a very social drink, similar in popularity to alcohol. Mornings at the local coffee shop are the place to hang out with friends or meet to discuss business. People tend to drink coffee at these gatherings, whether or not they like it, which eventually helps them to develop a taste for it, and then it becomes addictive.
