**Great Performances** Larry Lewin, Betty Jean Shoemaker, 2011-06-01 What grade did you give me students often ask teachers as if teachers randomly assign grades Too many students do not understand how their academic performance in the classroom corresponds with various grades Improving students understanding of what their teachers expect them to do how well they should be able to do it and how they should go about accomplishing it is what this book is all about Lewin and Shoemaker show you how to teach rich integrated thematic units of instruction where students grapple with meaty conceptual ideas and use the processes of reading writing problem solving and investigation The authors share what they ve learned about developing and assessing powerful performance tasks ranging from short and specific to lengthy and substantive Their focus is on the practical the doable You can learn from their successes as well as their mistakes The authors discuss a four step approach for teaching students how to acquire content knowledge labeled Info In and examine four Info Out modes through which students can make their content understanding explicit for evaluation purposes Great Performances is filled with highly motivating examples of student projects as well as effective assessment tools that teachers can adapt for their own classrooms In this new edition you will find updated examples and scoring mechanisms throughout the chapters expanded options for converting performance task scores into required letter grades for reporting to parents and a new chapter on reading assessment to help teachers navigate their way through Response to Intervention This chapter also provides as a helpful review of popular commercially published in class reading assessments Teaching to and assessing with performance tasks result in true understanding the type of understanding students will need in the world where they will be expected to produce Great Performances

**Context and Cognition** Paul Light, George Butterworth, 2016-07-07 Originally published in 1993 the study of cognitive development in children had moved from a focus on the intellectual processes of the individual studied in relative isolation as in the classic work of Piaget to a concern in the 1970s and 1980s with social cognition characterized by Vygotsky s views In the years following the trend toward an understanding of the situated nature of cognition had evolved even further and the extent to which thinking and knowing are inextricably linked to contextual constraints was at last being defined Experts of international repute the authors of this important book examine the recent literature on situated cognition in children They explain contextual sensitivity in relation to ecological theories of cognition and contrast intuitive reasoning in mathematical and other scientific domains with the failure of such reasoning in formal school contexts Centrally concerned with the

question of generalizability and transfer of knowledge from one situation to another the contributors point to practical implications for understanding how intellectual competence can be made to generalize between informal and formal situations

Writing in Context(s) Triantafillia Kostouli, 2006-01-20 The premise that writing is a socially situated act of interaction between readers and writers is well established This volume first corroborates this premise by citing pertinent evidence through the analysis of written texts and interactive writing contexts and from educational settings across different cultures from which we have scant evidence Secondly all chapters though addressing the social nature of writing propose a variety of perspectives making the volume multidisciplinary in nature Finally this volume accounts for the diversity of the research perspectives each chapter proposes by situating the plurality of terminological issues and methodologies into a more integrative framework Thus a coherent overall framework is created within which different research strands i e the sociocognitive sociolinguistic research composition work genre analysis and pedagogical practices developed on L1 and L2 writing can be situated and acquire meaning This volume will be of particular interest to researchers in the areas of language and literacy education in L1 and L2 applied linguists interested in school and academic contexts of writing teacher educators and graduate students working in the fields of L1 and L2 writing
