Models, Methods, and Morality Sarah C. Murray, Seth Bernard, 2024-06-17 This edited volume presents a multi perspectival inquiry into the models that have shaped the study of ancient economies in past decades The contributions collected here respond to the prevailing tendency to measure ancient Mediterranean economies using methods and techniques designed for assessing the performance of modern economies considering a range of approaches that might generate a more socially and morally attuned history of the ancient Mediterranean The volume explores the challenges of quantification and critically examines the ideological assumptions implicit within the models usually applied to the study of ancient economic performance The chapters advocate for more inclusive alternatives to

traditional ideas of growth that take factors such as social inequality fairness wellbeing and the relationship between humans and the natural environment into consideration The book examines through a series of different questions the importance of querying the appropriateness of economic methods from an ethical or socially aware position Rather than condemning older models methods and points of view for their inadequacies this book focuses on leveraging the benefits from existing methods in economics and suggesting new frameworks to reach toward historical approaches that are both methodologically sophisticated and attuned to the moral ethical and political concerns of the twenty first century This book will be a valuable resource for interdisciplinary researchers in economics economic history ancient history and archaeology XXX
