Born with a Spirit of Protest Craig Carpenter, 2020-01-09 School shootings are on the increase and it often seems like another shooting is just a matter of time The emphasis on encouragement groups as a method of preventing gun violence is dealt with in practical terms Students will learn to help each other before a perpetrator becomes discouraged enough to shoot other children The reader will also experience the logic of a young person who verbalizes suicidal ideations and another who develops an eating disorder Varying strategies to overcome these obstacles is also presented Clearinghouse Review, 1998 *The Ethics of Homelessness* G. John M. Abbarno, 1999 This book extends the study of homelessness beyond the need of shelter Philosophical exploration exposes the fragility of human fulfillment in contemporary society The authors weave the moral fabric of what it means to be human They show how economic and political values compromise the dignity of homeless persons They argue for recognition of rights for the homeless who otherwise would be voiceless and without membership in the moral community This pioneering contribution instills our moral sensitivity to the homeless condition and justifies our moral responsibility to change that condition The Story of the Spirit Pin Nancy Johnson, 2020-08-03 The Story of the Spirit Pin is a tale about seeking perpetual peace on Earth to protect the most vulnerable population the individual

Tornado Spring (Free Spirit Adventures : RV) Stephen Richards, 2012-02-16 The average number of tornados in the USA for the month of April is normally around 135 but in April 2011 there were over 600 It was the worst month for tornados in United States records On April 27th there were over 190 tornados recorded the most ever in a single day The tornado outbreak of April 2011 killed over 350 people 65 in Tuscaloosa Alabama on April 27th alone This was the deadliest tornado outbreak in over 85 years It was at the beginning of April 2011 that we embarked on our journey with the aim of driving a motorhome around the USA We planned to complete the tour in three stages the first of which would take us from Florida in the south up the eastern side of America to the Canadian border We were not to know that we would be travelling the full height of the United States during the worst tornado outbreak on record This is the true story of that journey Of course adventure is for the rich and famous but it is for ordinary people too San Francisco Daily Times, 1901 Welcoming the Other N. Susan Laehn, Thomas R. Laehn, 2021-02-15 The modern turn in political philosophy established the ontological primacy of the ego reducing the community to a mere assemblage of individuals and led to the repudiation of natural duties in favor of inherent individual rights The modern project culminated in the work of Friedrich Nietzsche whose emphasis on radical individuation left human beings both liberated and exiled Individuals were free to create and to recreate themselves anew but they were simultaneously uprooted from any larger community Indeed the very possibility of shared meaning let

alone shared political life was called into question This volume consists of essays addressing the efforts of philosophers artists caretakers and perhaps most importantly teachers to reestablish a foundation for political life in postmodernity The origins of these efforts are diverse and their modes are varied Individuals seek communion with the divine either with or through others they pursue friendship among strangers and they search for meaningful relationships in both the classroom and the public square Reflecting the various means by which individuals seek communion with others and with the transcendent divine Other the essays contained in this volume explore the modes through which individuals forge relationships with others in an age of isolation

The Spirit of Missions, 1941 Includes the proceedings of the annual meeting of the Society **Apostles of the Spirit and Fire** Nigel Scotland, 2009-11-01 This is a book about American revivalist religion and the ways in which it impacted British Christianity in nineteenth century England The term revivalist seems to have first been used in the period after the Second Great Awakening in the United States It designated those individuals and churches who sought to manufacture or create revival by human endeavor rather than as in former times pray and wait for a sovereign move of God s Spirit Revivalism had a number of marked features which are charted in detail in chapter 1 it was inevitably characterized by emotion excitement and religious exercises Particular attention has been given to ways in which the different American revivalists understood revival and the methods by which they sought to achieve it The book includes a focus on one or two female revivalists whose work has tended to be overlooked in some studies A treasure trove of good things Nigel Scotland has produced a carefully researched well written accessible and captivating study While the obvious revival figures are given their due he breaks new ground with the inclusion of material on unknown or less well known figures and types of mission His figures come alive and are given good opportunities to speak for themselves There is a judicious handling of controversial historiographical and historical matters The impact of the whole is enhanced by effective graphics Lisa Severine Nolland lay chaplain and tutor in Bristol and author of a Victorian Feminist Christian Josephine Butler the Prostitutes and God Paternoster 2004 This is a wide ranging study which offers vivid pictures of well known American revivalists such as Charles Finney and D L Moody as well as several whose work has been given much less attention It is particularly pleasing to have chapters on two African American women Zilpha Elaw and Amanda Berry Smith The influence of Phoebe Palmer and Hannah Pearsall Smith both of whom helped to shape aspects of the nineteenth century holiness movements is also helpfully analyzed This book is an excellent resource for those interested in the history of revival movements Lan M Randall Director of Research Spurgeon s College London and Senior Research Fellow at the International Baptist Theological Seminary Prague

Lause, 2016-06-30 Often dismissed as a nineteenth century curiosity spiritualism influenced the radical social and political movements of its time Believers filled the ranks of the Free Democrats agitated for land and monetary reform fought for abolition and held egalitarian leanings that found powerful expression in campaigns for gender and racial equality In Free Spirits Mark A Lause considers spiritualism as a political and cultural force in Civil War era America Lause reveals the scope spread and influence of the movement both in its links to reformist causes and its ability to amplify previously marginalized voices Rooting spiritualism s appeal in the crises of the time Lause considers how spiritualist influences through the

distillation of the war forced reassessments of the question of Radical Republicanism and radicalism in general He also delves into unexplored areas such as the movement's role in Lincoln's reelection and the relationship between Native Americans and spiritualists

Doomsday Men P. D. Smith, 2024-09-04 The gripping untold story of the doomsday bomb the ultimate weapon of mass destruction Chillingly compelling New Scientist In 1950 Hungarian born scientist Leo Szilard made a dramatic announcement on American radio science was on the verge of creating a doomsday bomb For the first time in history mankind realized that he had within his grasp a truly God like power the ability to destroy life itself The shockwave from this statement reverberated across the following decade and beyond If detonated Szilard's doomsday device a huge cobalt clad H bomb would pollute the atmosphere with radioactivity and end all life on earth The scientific creators of such apocalyptic weapons had transformed the laws of nature into instruments of mass destruction and for many people in the Cold War there was little to distinguish real scientists from that fictional master of megadeath Stanley Kubrick's Dr Strangelove Indeed as P D Smith's chilling account *Doomsday Men* shows the dream of the superweapon begins in popular culture This is a story that cannot be told without the iconic films and fictions that portray our deadly fascination with superweapons from H G Wells's *The War of the Worlds* to Nevil Shute's *On the Beach* and Kubrick's *Dr Strangelove* or *How I Learned to Stop Worrying and Love the Bomb* Although scientists admitted it was possible to build the cobalt bomb no superpower would admit to having created one However it remained a terrifying possibility striking fear into the hearts of people around the world The story of the cobalt bomb is an unwritten chapter of the Cold War but now P D Smith reveals the personalities behind this feared technology and shows how the scientists responsible for the twentieth century's most terrible weapons grew up in a culture dreaming of superweapons and Wellsian utopias He argues that in the end the doomsday machine became the ultimate symbol of humanity's deepest fears about the science of destruction Weaving together biography science and art Smith has created a compelling history of physics in the twentieth century focusing on the long lasting search for ever more destructive weapons from the development of chemical warfare in World War I Germany through the arms race of the Cold War Captivating and thoroughly referenced this chronicle should interest a wide audience from science and history buffs to armchair politicians Publishers Weekly
