At daylight I was half-awakened by the sound of chopping. Again it was so even in texture that I went back to sleep. When I left my bed in the cool morning, the boy had come and gone, and a stack of kindling was neat against the cabin wall. He came after school in the afternoon and worked until time to return to the orphanage. His name was Jerry he had been at the orphanage since he was four. I could picture him at four, with the same grave gray-blue eyes and the same—independence. No, the word that comes to me is 'integrity' It is bedded on courage, but it is more than brave. It is honest, but it is more than honesty. The axe handle broke one day. Jerry said the woodshop at the orphanage would repair it. I brought money to pay for the job and he refused it. "I'll pay for it," he said. "I broke it. I brought the axe down careless." "But no one hits accurately every time." I told him. "The fault was in the wood of the handle. I'll see the man from whom I bought it." It was only then that he would take the money. He was standing back of his own carelessness. He was a free-will agent and he chose to do careful work, and if he failed, he took the responsibility without subterfuge.

Afterwards they formed The Green Army and operated a mission called Operation Survival of USA to save the innocent civilians of the nation from this dire situation. With minimal support from the US government they had to immobilize the Red Army. The Acute Management of Surgical Disease Martin D. Zielinski, Oscar Guillaumondegui, 2022-09-15 Emergency General Surgery has become a cornerstone of Acute Care Surgery over the past decade. Once the scope of community general surgeons, the growing complexity of patients with acute surgical diseases has increasingly driven their care to tertiary referral centers. The aging population confounds this problem further as these patients present with more complex comorbidities, life-threatening physiology and progressively severe anatomic disease severity. To ensure better outcomes, the practice has evolved to focus on evidence-based practice management guidelines in order to standardize care and optimize outcomes. The purpose of this text is to be a comprehensive volume for patients with acute surgical diseases. There will be three sections each comprised of multiple chapters. The first section will be a comprehensive analysis of the background of Emergency General Surgery. The goal of this section will be to provide the

reader background into the acute surgical practice and to introduce the reader to the important concepts discussed in the remainder of the textbook The second section will be the largest and will discuss specific acute surgical diseases Individual chapters will outline the diagnostic approach current treatment standards operative approaches and expected outcomes with an emphasis on practice management guideline implementation into practice As acute surgical diseases and surgical critical care are integral to each other the last section will be Critical Care for the Acute Care Surgeon These topics will focus on the critical care concepts essential to surgeons who care for acute diseases This comprehensive text is targeted to any surgeon who takes emergency call for any of the listed diseases including community and referral general and vascular surgeons In addition this would be an excellent resource for all general surgery residents Lastly this would also serve as a resource to intensivists who care for acute surgical patients
