It's Your Move, 1982 Now It's Your Move Frederick W. DeRoche, Mary A. McDougall, 1984 **It's Your Move, 4th Edition** Marge Watters, 2012-01-24 For over a decade *It's Your Move* has been helping Canadian executives managers and professionals get the job they really want with proven advice and strategies Today competition for jobs is tough but at the same time opportunities for career change are plentiful Thoroughly revised and updated throughout *It's Your Move* offers clear proven advice and strategies including How to use social media effectively from establishing a powerful online presence to making the most of professional sites such as LinkedIn A step by step guide to networking approaching contacts and conducting networking meetings in a way that generates new leads and eventually employment opportunities The importance of research for the job search how to differentiate yourself from the competition through research that goes much deeper than what can be found easily on the Internet How you negotiate a job offer this can set a positive or negative tone for your relationship with a new employer Understand what to negotiate and what to leave as is For the millions of Canadians contemplating a career change or currently experiencing a sudden job loss the updated edition of *It's Your Move* will be a key tool in their storehouse of career strategies **The Expert Negotiator, 4th Edition** Raymond Saner, 2012-05-31 Success in negotiation is not a matter of chance but the result of careful planning and specialized skills Some of these skills are inborn others need to be learnt In this book the social scientist and economist Professor Dr Raymond Saner draws on his long years of experience as a negotiation adviser teacher trainer researcher and university lecturer to show that two-thirds of negotiation practice is learnable Yet very few people are specifically trained in this everyday task Without sacrificing scientific accuracy Professor Saner offers a highly readable and fascinating guide to the subject In so doing he does not limit himself to the over simplified tips generally put out on successful bargaining in every imaginable situation Rather he treats

the different aspects of negotiation practice in a way that is useful to both academics and practitioners such that the general laws and principles gradually become evident as and of themselves The aim of this approach is to reveal the essence of negotiation through the experience of both the author and the reader Such an understanding of the processes involved in negotiation is of far greater practical value than a mere collection of recipes with no discussion of the underlying theory while the most comprehensive treatment of the theory without reference to its application in practice would be only half the story Thus the text is supplemented by a series of illustrative examples and case studies from the business political NGO and international organization arenas plus some seventy figures and tables With all this the author has paid considerable attention to writing a text that is both entertaining to read and rigorous in content
