Iters Score Sheet:

Infant/toddler Environment Rating Scale Thelma Harms, Debby Cryer, Richard M. Clifford, 2006 Featuring a new spiral binding the updated ITERS R offers more practical assistance in the form of additional notes for clarification and an Expanded Score Sheet which incorporates notes and tables to assist in scoring However the items and indicators remain the same as in the original ITERS R Designed for use in center based child care programs for infants and toddlers up to 30 months of age the ITERS R can be used by program directors for supervision and program improvement by teaching staff for self assessment by agency staff for monitoring and in teacher training programs The established reliability and validity of the scale make it particularly useful for research and program evaluation *Infant Toddler Environment Rating Scale Scoring Sheets* Thelma Harms, 1990-03-01 The 35 items in the ITERS are divided into seven categories Furnishings and Display for Children Personal Care Routines Listening and Talking Learning Activities Interactions Program Structure Adult Needs

Resources for Measuring Services and Outcomes in Head Start Programs Serving Infants and Toddlers Ellen Eliason Kisker, 2006 Literacy, Storytelling and Bilingualism in Asian Classrooms Alice Sterling Honig, 2017-10-02 Contrary to previously held beliefs that bilingualism would hinder cognitive and language development in children research has shown that bilingual children show enhanced cognitive flexibility and an ability to better focus their attention This book explores both emergent literacy and bilingualism in children in four Asian countries Hong Kong Singapore Myanmar and Taiwan giving specific examples of how adults including parents teachers and other education professionals can use creative interaction as opposed to rote learning to increase children's interest in learning English as a second language This is especially important in the increasingly computer connected world where innovation can be key in making second language learning both interesting and effective Specific contributions to this volume include a case study of Taiwanese families analyzing home videos of their children's responses to the task of reading a Mandarin picture book of vocabulary instruction in Hong Kong which requires children to gain triple language proficiency Cantonese English and Mandarin of the relation between Cantonese proficiency amongst 5 year olds in Hong Kong and their receptiveness to learning new English vocabulary of the relation between English reading ability and Mandarin speaking ability amongst Singaporean children of the importance of teachers sensitivity to gender differences among 6 year olds in Singapore learning English as a second language of the active promotion of storytelling by teachers in Myanmar in order to develop children's interest in story structure and to stimulate early language skills and of an emphasis on family based emergent literacy activities for children in Taiwan This book was originally published as a special issue of Early Child Development and Care **Report** United States.
