Read the text and answer questions 1 and 2 :

Shamima's misery started the day she was married. Her husband was a greedy person and he used to abuse her verbally and physically. Within a few months into her marriage she had to leave her husband Kamal Uddin Joardar. Now Shamima vows to work with women, who are ill-fated like her. She has 43 female members in her organisation working for her. She herself trains the members and then provides them with work. She designs fabrics, makes block-print, brush-paint and hand-embroidered saris. She also makes three-piece dresses for women, and 'fatuas' for men. She sells these products in her shop and supplies them outside.

Sammima has a dream now, a dream to do something for the helpless people. She wants them to feel useful. They can live with self-respect and dignity. With this in view, she goes out looking for such people. Shamima finished her story with a smile. Shamima has no complaints, no regrets, no grudges. Her husband could destroy her outward beauty but not the beauty of her mind. All she wants to do is to bring a smile on the faces of those women who are unfortunate. Shamima wants to become a famous designer.

web feb 1 2009 extended finite element method in comparison to the classical finite element method the x fem provides

significant benefits in the numerical modelling of crack propagation in the traditional formulation of the fem the existence of a crack is modelled by requiring the crack to follow element edges

extended finite element method wikipedia - Feb 15 2023

web the extended finite element method xfem is a numerical technique based on the generalized finite element method gfem and the partition of unity method pum it extends the classical finite element method fem approach by enriching the solution space for solutions to differential equations with discontinuous functions
