Trisolini, Gregory C. Pope, Janet B. Mitchell, Leslie M. Greenwald, 2011-02-28 This book provides a balanced assessment of pay for performance P4P addressing both its promise and its shortcomings P4P programs have become widespread in health care in just the past decade and have generated a great deal of enthusiasm in health policy circles and among legislators despite limited evidence of their effectiveness On a positive note this movement has developed and tested many new types of health care payment systems and has stimulated much new thinking about how to improve quality of care and reduce the costs of health care The current interest in P4P echoes earlier enthusiasms in health policy such as those for capitation and managed care in the 1990s that failed to live up to their early promise The fate of P4P is not yet certain but we can learn a number of lessons from experiences with P4P to date and ways to improve the designs of P4P programs are becoming apparent We anticipate that a second generation of P4P programs can now be developed that can have greater impact and be better integrated with other interventions to improve the quality of care and reduce costs **Introduction to Built Asset Management** Anthony Higham, Jason Challender, Greg Watts, 2022-01-25 Introduction to Built Asset Management Provides a multidisciplinary introduction to building maintenance management and execution covering a wide range of current technical and management issues The maintenance and upgrading of existing buildings is no longer viewed as separate from the operational phase of the completed building Maintenance and management are now regarded as fundamental parts of a building s life cycle forming a significant percentage of the construction industry s total output As higher education programmes in the UK and elsewhere continue to place greater emphasis on the longer term view of construction projects
