

# Kawasaki KZ400J and ZX550 Cam Timing

Lou D 12/09

The "EX" line mark on the exhaust cam should line up with the head surface for the valve cover gasket. Because the chain may be slightly stretched, the "EX" line mark may be slightly above the head surface. The camchain pins are used to time the intake cam. Pin 1 is just above the "EX" line mark. The line mark between the "Z4" and "IN" on the "Z4/IN" mark on the intake cam should line up between the 43rd and 44th pin. The exhaust cam lobe for cylinder #1 should point forward, and the intake cam lobe for cylinder #1 should point backward. The #1 piston (and #4 piston) should be at TDC. The chain between the exhaust cam and crankshaft should be taught.

Ignore the chain plates. They are only shown for illustration purposes. Only the pin numbering is important.
