**Gefährliche Nähe [German-language Edition]** Michail Logvinov, Klaus Hummel, 2014-03-01 Salafism and jihadism are an important focus of inner German security discussions. The Salafi proselytizing is more successful than ever and the jihad in Afghanistan or Syria pulls Islamists from Germany. This collection offers an examination of currently virulent phenomena of Salafism and jihadism from different perspectives. It is sometimes claimed that either Islam and violence or religion and terror go hand in hand; the authors of this volume aim to show that this is not so. Using the methods of social science to determine whether and under what conditions such a dangerous proximity comes about, this book offers insight into which actors are being looked for by extremists to exploit and to use as self-fulfilling prophecies. To this end, the authors develop innovative analytical concepts. Among other things, a process of co-radicalization and an attitude-based approach to the study of Salafist networks are described. The book makes an important contribution to the current debate by not presenting the potentially dangerous proximity of Islam and violence as a social fact but describes it as a factor that can be influenced and understood. Salafismus und Dschihadismus stehen im Mittelpunkt innerdeutscher Sicherheitsdiskussionen. Die salafistische Missionierung ist erfolgreich wie nie zuvor und der Dschihad in Afghanistan oder Syrien zieht die Islamisten aus Deutschland an. Der vorliegende Sammelband beleuchtet aus unterschiedlichen Perspektiven die derzeit virulenten Phänomene des Salafismus und Dschihadismus. Weder soll damit plakativ eine Nähe von Islam und Gewalt, Religion und Terror behauptet noch eine solche pauschal geleugnet werden. Vielmehr wird mit sozialwissenschaftlichen Methoden erklärt, ob und unter welchen Bedingungen eine solche gefährliche Nähe zustande kommt, welche Akteure sie suchen, instrumentalisieren oder sie zur sich selbst erfüllenden

Prophezeiung werden lassen Zu diesem Zweck entwickeln die Autoren innovative Analysekonzepte Unter anderem werden ein Prozess der Co Radikalisierung und ein attit denbasierter Ansatz zur Untersuchung salafistischer Netzwerke beschrieben Der Band leistet einen wichtigen Beitrag zur aktuellen Diskussion indem er die gef hrliche potentielle N he von Islam und Gewalt nicht etwa als soziales Faktum pr sentiert sondern als beeinflussbare Gr e beschreibt und verst ndlich macht

*Memory, Conflict and New Media* Ellen Rutten,Julie Fedor,Vera Zvereva,2013-04-12 This book examines the online memory wars in post Soviet states where political conflicts take the shape of heated debates about the recent past and especially World War II and Soviet socialism To this day former socialist states face the challenge of constructing national identities producing national memories and relating to the Soviet legacy Their pasts are principally intertwined changing readings of history in one country generate fierce reactions in others In this transnational memory war digital media form a pivotal discursive space one that provides speakers with radically new commemorative tools Uniting contributions by leading scholars in the field *Memory Conflict and New Media* is the first book length publication to analyse how new media serve as a site of political and national identity building in post socialist states The book also examines how the construction of online identity is irreversibly affected by thinking about the past in this geopolitical domain By highlighting post socialist memory s digital mediations and digital memory s transcultural scope the volume succeeds in a twofold aim to deepen and refine both post socialist memory theory and digital memory studies This book will be of much interest to students of media studies post Soviet studies Eastern European Politics memory studies and International Relations in general
