Les Organisations Internationales Science Politique:

Les organisations internationales Marie-Claude Smouts, Guillaume Devin, 2011-08-31 L objet de cet ouvrage est d apporter ce que la Toile ne fournit pas une problématique donnant une intelligibilité au phénomène des organisations internationales afin d accéder une connaissance plus fine de leur place dans le système international Il ne dresse pas un catalogue des organisations internationales mais les présente selon les besoins de l analyse pour ce qu elles nous apprennent sur une question précise Leur action dans les domaines clés de la coopération internationale sécurité environnement commerce droits de l homme etc ne fait pas l objet d études de cas juxtaposés comme on le voit dans la plupart des ouvrages Elle est abordée dans le souci d illustrer telle ou telle interaction des OI avec le système international La démarche carte de l approche institutionnelle classique Elle se situe dans une perspective socio-historique privilégiant les jeux d acteurs en mouvement plutôt que les règles et structures

Les organisations internationales - 2e éd Guillaume Devin, 2016-03-02 L activité multilatérale mobilise aujourd'hui l essentiel de la politique extérieure Dans un monde façonné par la libéralisation des échanges et la mondialisation de l information aucun domaine de l activité humaine n échappe désormais au besoin de concertation l chelle planétaire Chaque problème nouveau engendre plus ou moins longue chance une nouvelle instance internationale baptisée selon les circonstances forum conseil groupe comité organisation Jamais les formes de coopération n ont été aussi diverses Jamais les institutions internationales n ont été aussi nombreuses Elles possèdent toutes leur trajectoire particulière leur organisation leur degré d autonomie variable vis-à-vis de leurs membres rendant l ensemble du système difficile saisir dans tous ses détails D'où l'intérêt du présent ouvrage sans équivalent en langue française qui fait le choix d une approche globale et privilégie l étude des organisations internationales comme phénomène social majeur Il souligne ainsi le mouvement propre ces organisations et propose une nouvelle manière de lire la transformation des relations internationales

Les organisations internationales - 3e éd. - Entre intégration et différenciation Guillaume Devin, 2022-02-09 Depuis deux siècles les organisations internationales incarnent les espoirs et les déceptions de la coopération internationale L augmentation de leur nombre et l extension de leurs compétences sont spectaculaires ONU Unesco OMS OMC OIT etc Le phénomène est devenu un fait politique et social majeur des relations internationales contemporaines Tantôt il témoigne du rapprochement des acteurs internationaux tantôt il révèle toutes les différences qui les séparent L'un ne va pas sans l'autre C'est le paradoxe des organisations internationales contribuer au bien commun tout en servant les intérêts particuliers Ce livre sans équivalent en langue française fait le choix d une approche globale Au-delà des trajectoires singulières des organisations internationales il en saisit le mouvement général et propose une nouvelle manière de lire la transformation des relations internationales
